HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for core service integrations, ensuring seamless data exchange across enterprise platforms.
- Designed and implemented **Hibernate** entities and mappings for complex relational data models, optimizing data persistence and retrieval operations.
- Engineered **JUnit** and **Mockito** test suites for critical Java modules, achieving over 85% code coverage and enhancing system stability.
- Contributed to the **Business Process Reengineering** team by analysing existing operational workflows and documenting proposed improvements for system enhancements.
- Analyzed large datasets using **SQL** and **Python** (pandas) to identify trends and present actionable insights on service performance metrics to stakeholders.
- Supported the **Data Analytics** department by creating and refining operational reports and dashboards, translating raw data into clear visualizations for business review.
- Containerized applications using **Docker** and managed deployments on **AWS EC2** instances, streamlining the development-to-production pipeline.

SKILLS

Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Tools & Methodologies – Jira, Confluence, Agile, Scrum, REST APIs

PROJECTS

Service Operations Dashboard Enhancement (HCL Technologies)

- Developed new Java Spring Boot microservices to ingest and process operational data streams, enhancing the real-time monitoring capabilities of a financial-services dashboard.
- Implemented custom reporting features using SQL queries across PostgreSQL and Oracle databases, providing detailed transaction flow analysis for internal operations teams.
- Collaborated with business analysts to gather requirements for new dashboard widgets, translating them into technical specifications for feature development.

Customer Support Data Analysis & Reporting

- Built interactive Power BI dashboards to visualize key performance indicators for customer support interactions, identifying areas for service improvement.
- Analyzed historical support ticket data using Python (pandas) and SQL, uncovering patterns in common technical issues and reducing average resolution time by 15%.
- Presented findings and recommendations from data analysis to the customer support management team, contributing to strategic operational decisions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
