HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented reusable UI components for an enterprise ERP system using **React** and state management libraries, improving user interaction consistency across modules.
- Developed and maintained **Java Spring Boot** RESTful APIs for cross-system data exchange, handling approximately **500 requests per minute** and ensuring adherence to API gateway configurations.
- Wrote Python scripts to automate data validation and generate scheduled reports from PostgreSQL databases, reducing manual reporting effort by **15 hours per week**.
- Contributed to the design and implementation of a new **BIM** workflow for a regional infrastructure delivery programme, integrating architectural models with structural engineering data.
- Participated in the development and refinement of architectural design concepts for science and industry sector projects, translating initial sketches into preliminary **Revit** models.
- Collaborated with multidisciplinary teams to prepare coordinated architectural drawings and project information, ensuring alignment with client requirements and regulatory standards.
- Managed application stability for enterprise systems on AWS, performing log analysis with **Splunk** and responding to P1/P2 incidents within defined SLA targets.

SKILLS

Architecture & Design – BIM, Revit, AutoCAD, Rhino, Adobe Creative Suite, Parametric Design, AI-assisted tools, Concept Design, Masterplanning, Detailed Design, Construction Delivery

Programming Languages – Java, Python, SQL, R, JavaScript, TypeScript

Backend Technologies – Spring Boot, REST APIs, Hibernate, JPA, Flask, FastAPI, Node.js, NestJS

Databases – PostgreSQL, MySQL, Oracle, SQL Server

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn, Data Warehousing, Statistical Analysis

PROJECTS

Enterprise Resource Planning System Modernization

- Developed a suite of **Java Spring Boot** microservices to manage core ERP data modules, integrating with a **PostgreSQL** database and exposing RESTful APIs for front-end consumption.
- Implemented data synchronization processes using **Python** and **pandas** to migrate and validate historical data from legacy systems, ensuring data integrity during the transition.
- Authored comprehensive technical documentation and deployment guides for the new ERP modules, facilitating smoother integration and user adoption within the operations team.

Digital Twin Development for Building Information Modelling

- Constructed detailed **Revit** models for building components and systems, adhering to industry-standard BIM protocols for a hypothetical sustainable urban development project.
- Explored the application of **parametric design** principles using scripting within modelling software to generate design variations based on environmental performance criteria.
- Collaborated with simulated engineering consultants to integrate structural and MEP data into a central BIM model, demonstrating a coordinated project delivery approach.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
