PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Investigated and resolved P1/P2 incidents for enterprise applications using **Splunk** and **Dynatrace**, maintaining strict adherence to service level agreements.
- Developed Python scripts to automate data extraction and transformation for scheduled reporting, reducing manual effort by approximately **15 hours** per month.
- Wrote and optimized **SQL** queries across PostgreSQL and Oracle databases for data validation and ad-hoc reporting, supporting operational analysis.
- Collaborated with internal business analysts and operations teams to gather requirements and provide UAT support for system enhancements, ensuring alignment with business needs.
- Managed the lifecycle of support tickets in an **ITSM platform**, adhering to change management processes for hotfixes and configuration updates before production deployment.
- Tested and validated **REST APIs** using Postman, inspecting payloads and response headers to isolate integration failures between internal systems and partner endpoints.
- Documented root cause analyses and standard operating procedures for common application issues, contributing to a team knowledge base and improving user self-service rates by **10%**.

SKILLS

Application Support – ERP Support, Live Production Troubleshooting, Incident Management, Change Management, ITIL Processes, ITSM Platform (Freshservice)

Core Technologies – Java, Spring Boot, Python, SQL, REST APIs, SOAP APIs, XML, JSON, CSV

Databases – PostgreSQL, MySQL, Oracle, Database Querying, Data Reconciliation, Data Verification

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Monitoring & Debugging – Splunk, Dynatrace, API Testing (Postman), Log Analysis, Shell Scripting

Enterprise Systems – ERP Systems, B2B Integrations, Data Pipelines, Application Architecture, Data Flows, RBAC, GDPR Compliance

PROJECTS

ERP Integration Support and Workflow Automation

- Supported and integrated with enterprise business systems, including an **ERP** module and operational platforms, ensuring seamless data flow across applications.
- Developed **Python** scripts to automate data reconciliation tasks between disparate systems, reducing manual data entry errors by an estimated **20%**.
- Managed change control processes for system configuration updates, coordinating User Acceptance Testing (UAT) and providing post-go-live support for critical business functions.

Payments Operations Dashboard Enhancement

- Contributed to a **payments operations dashboard** by implementing enhancements for transaction monitoring and operational alerting on failed payment messages.
- Wrote **SQL** queries to extract and validate transactional data, supporting reconciliation workflows and audit trail generation within a regulated production environment.
- Collaborated with cross-functional teams, including operations and business analysts, to refine dashboard features and triage post-implementation issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
