PROFESSIONAL EXPERIENCE — 3.5+ YEARS

Trust & Safety Agent — Accenture, Dublin, Ireland Jul 2026 – Present

- Investigate and action user-generated content and account reports against **community standards** and policies for a large-scale online platform.
- Handle escalated abuse cases including harassment, hate speech, scams, and **inauthentic behaviour**.
- Document **policy enforcement** decisions and identify emerging abuse trends to inform platform safety.
- Achieve quality-audit, calibration, accuracy, and productivity targets for content review and **risk assessment**.

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed Java Spring Boot applications, building REST APIs for system integrations and data exchange.
- Implemented SQL queries for data validation and schema adjustments, ensuring data integrity.
- Created Python scripts for data pipelines and scheduled reporting, supporting operational analytics.
- Managed production support for enterprise applications, responding to P1/P2 incidents under strict SLAs.
- Monitored application health using Splunk and CloudWatch, performing log analysis for issue resolution.
- Handled **escalations** from operations teams, documenting issues and coordinating fixes.
- Supported financial-services client operations, monitoring transaction flows and payment message status.

SKILLS

Policy Enforcement – Community standards, policy guidelines, content review, abuse investigations.

Risk Assessment – Emerging abuse trends, account security, fraud detection, risk mitigation.

Operations – Incident management, escalations, exception management, high-volume transactions.

Financial Accounting – Fixed asset register, capital expenditure, depreciation, impairments, statutory reporting, budgeting.

Data Analytics – Data modelling, financial modelling, A/B testing, exploratory data analysis, business intelligence.

Tools & Technologies – Python, SQL, Java, Spring Boot, Power BI, Tableau, Splunk, AWS, Jira, Confluence.

PROJECTS

Financial Fraud Detection Analysis (MSc Data Analytics)

- Developed Python scripts using pandas and scikit-learn to analyze transaction data for suspicious patterns.
- Created Power BI dashboards to visualize fraud indicators and report key findings to stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
