PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and implemented **Java Spring Boot** REST APIs to support new product introduction processes, ensuring seamless integration with existing enterprise systems.
- Designed and executed validation protocols for **new test methods**, including conducting Gage R&R; studies and performing detailed **statistical analysis** using Minitab.
- Contributed technical input to **root cause analysis** for product and process failures, generating investigation reports within defined KPI timelines and facilitating cross-functional reviews.
- Authored and updated technical documentation, including **test method procedures** and product/process standard operating procedures, ensuring adherence to regulatory requirements.
- Collaborated within a **Cross Functional Project Team** to provide engineering expertise throughout the product development process, ensuring compliance with all stages.
- Supported the **non-conforming material process** by ensuring proper disposition and assessing corrective actions to prevent recurrence, including managing complaint investigations.
- Containerized applications using **Docker** and managed deployments on **AWS EC2** instances, improving deployment consistency and reducing manual configuration.

SKILLS

Quality Engineering – New Product Introduction (NPI), Test Method Development, Validation, Gage R&R;, Statistical Analysis, Minitab, Root Cause Analysis, CAPA, ISO 14971, Risk Management, Quality Management Systems (QMS), FDA Regulations

Software Development – Java, Spring Boot, REST APIs, Python, SQL, Docker, AWS (EC2, S3, Lambda, CloudWatch), Git, Jenkins

Data Analysis & Reporting – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, Statistical Methods, Data Warehousing

Project Management & Collaboration – Agile/Scrum, Jira, Confluence, Cross-Functional Teams, Stakeholder Management, Change Management

Enterprise Systems & Support – ERP, Production Support, Incident Response, SLA Management, Change Control, Linux Shell Scripting

PROJECTS

NPI Test Method Validation Framework (HCL Technologies)

- Developed a standardized framework for validating new test methods in a medical device context, incorporating **statistical analysis** principles.
- Automated the generation of **test validation reports** using Python scripting, reducing manual reporting time by approximately 30% for the NPI team.
- Collaborated with manufacturing engineers to review and document inspection techniques and procedures for ensuring product integrity against design specifications.

Automated Compliance Reporting for Enterprise Systems (HCL Technologies)

- Engineered automated Python scripts to extract and process data from **PostgreSQL** and **Oracle** databases for compliance and operational reporting.
- Built interactive **Power BI dashboards** to visualize key performance indicators related to system uptime and incident response times for enterprise applications.
- Managed the deployment and scheduling of data pipelines using **Jenkins**, ensuring timely delivery of reports to business stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
