PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Established and maintained cloud financial governance processes and standards for a multi-cloud environment, ensuring accurate cost attribution to products and business units.
- Managed cloud commitment-based discount programs, including **AWS Reserved Instances & Savings Plans**, performing monthly utilization reviews and developing optimization strategies to maximize coverage.
- Developed and maintained executive and operational dashboards for cloud spend, consumption trends, and unit economics using **Power BI**, presenting findings to Business Unit leaders and IT Finance teams.
- Mined and analyzed cloud billing and consumption data from cloud providers and **FinOps tooling**, performing forensic analysis of spend anomalies and cost drivers.
- Partnered with Finance teams to develop annual budgets and quarterly forecasts for cloud expenditure across **Azure, AWS, and GCP**, monitoring forecast versus actual spend and identifying root causes of variances.
- Worked with cloud platform and application teams to implement rightsizing and storage optimization initiatives, identifying, tracking, and managing cloud cost optimization opportunities.
- Containerized the feature-pipeline services with **Docker** and deployed them to a **Kubernetes** cluster (EKS), wiring up Helm chart configuration and basic resource limits for predictable rollout.

SKILLS

Cloud Platforms – AWS, Azure, GCP

FinOps Tools – AWS Cost Explorer, AWS Cost and Usage Reports (CUR), Azure Cost Management, Apptio Cloudability

Financial Analysis – Forecasting, Budgeting, Variance Analysis, Financial Modelling, Cost Allocation, Chargeback Models, Unit Economics

Cloud Services – EC2, S3, Lambda, CloudWatch, Reserved Instances, Savings Plans

Data Visualization – Power BI, Tableau, DAX, Power Query

Programming & Scripting – Python, Java, SQL

DevOps & Orchestration – Docker, Kubernetes, Jenkins, Git

PROJECTS

Cloud Cost Optimization and Reporting Dashboard

- Developed a comprehensive cost optimization strategy for cloud resources across **AWS and Azure**, identifying potential savings of **~18%** by rightsizing instances and optimizing storage tiers.
- Built and deployed interactive **Power BI** dashboards to visualize cloud spend, consumption patterns, and savings realization for executive leadership and product owners.
- Automated the extraction and transformation of cloud billing data using **Python scripts** and **SQL queries**, reducing manual reporting effort by **~40%**.

Cloud Financial Governance Framework Implementation

- Designed and implemented a cloud financial governance framework, including tagging standards and ownership validation processes, for a multi-team cloud environment.
- Created standardized **chargeback models** for shared cloud services, ensuring accurate cost allocation and transparency for business units utilizing platform resources.
- Collaborated with cloud engineering and finance teams to establish clear accountability for cloud spend and ensure adherence to budgetary controls.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
