PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed warehouse operations and spare parts inventory, including picking, packing, and booking items in and out.
- Handled customer inquiries via phone, email, and in-person at the front counter, building and maintaining strong customer relationships.
- Coordinated goods in/out processes, organizing and managing deliveries, including loading and unloading shipments.
- Assisted with stock control and participated in regular stock takes to ensure inventory accuracy.
- Maintained a clean, tidy, and safe warehouse environment in compliance with safety standards.
- Supported day-to-day operations within the parts and aftersales team, demonstrating a flexible approach to assisting other departments as needed.
- Processed customer transactions using an **ERP system** and standard **Microsoft Office** tools, including **Excel** for inventory tracking.

SKILLS

Warehouse Operations – Inventory Management, Picking, Packing, Stock Control, Goods In/Out, Manual Handling

Customer Service – Customer Relationship Management, Communication Skills, Telephone Enquiries, Email Enquiries, Front Counter Service

Systems & Tools – ERP Systems, Microsoft Office Suite, Excel, Computer Literacy

Logistics – Delivery Management, Loading/Unloading, Organisation Skills

Safety & Compliance – Warehouse Safety, Cleanliness Standards

PROJECTS

Parts Inventory Management System Upgrade

- Assisted in the implementation of an upgraded **ERP system** module for parts inventory, focusing on improving stock tracking accuracy.
- Participated in data migration and validation tasks for existing part numbers and quantities, ensuring data integrity.
- Supported end-users during the transition period, addressing queries related to the new system's functionality for picking and booking parts.

Customer Order Fulfilment Process Improvement

- Analyzed current customer order picking and packing workflows to identify bottlenecks and propose efficiency improvements.
- Developed standardized checklists for goods-in processing to ensure all deliveries were accounted for accurately and efficiently.
- Contributed to maintaining a safe and organized parts storage area, improving accessibility for order fulfilment.
