PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided Level 1 IT support for enterprise applications, diagnosing and resolving technical issues across Windows and Microsoft 365 environments.
- Managed a high volume of support tickets within an ITIL framework, ensuring timely client updates and accurate IT documentation through **Jira** and **Confluence**.
- Configured and deployed new laptops, desktops, and mobile devices for end-users, ensuring seamless integration into the client's network infrastructure.
- Troubleshot and resolved technical issues for **Apple devices** and **Windows** operating systems, escalating complex problems to senior support engineers.
- Supported users with **Microsoft 365** applications, including Outlook, Teams, and SharePoint, providing guidance and resolving common user errors.
- Maintained and updated IT documentation, including support guides and deployment procedures, to ensure knowledge transfer within the support team.
- Assisted with basic network troubleshooting and user account management within Active Directory environments.

SKILLS

Operating Systems – Windows, macOS, Linux

Productivity Suites – Microsoft 365, Outlook, Teams, SharePoint

Hardware Support – Laptops, Desktops, Mobile Devices, Tablets

IT Support Tools – Jira, Confluence, Ticketing Systems

Networking – TCP/IP, DNS, DHCP

Security – Active Directory, Basic Authentication Protocols

PROJECTS

Enterprise Application Support Enhancement

- Streamlined the incident response process for critical enterprise applications by refining **Splunk** alert configurations, reducing P1 incident triage time by an average of 15%.
- Developed Python scripts to automate routine data validation checks for financial transaction logs, improving data accuracy for operational reporting.
- Contributed to CI/CD pipelines using **Jenkins** and Git for deployment of Java Spring Boot application updates, ensuring consistent and reliable releases.

Client Device Deployment Automation

- Developed a PowerShell script to automate the initial setup and configuration of new Windows laptops, reducing manual deployment time by 40% per device.
- Created user-facing documentation for common IT support queries and new software deployments, reducing inbound ticket volume by approximately 10% for documented issues.
- Managed the inventory and deployment schedule for over 50 new employee workstations and mobile devices within a 3-month period.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
