PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered and documented business requirements for Security Operations (SecOps) metrics and dashboard enhancements, translating operational needs into actionable user stories for technical teams.
- Supported the creation of operational reporting packages, including tracking Key Performance Indicators (KPIs) and Key Risk Indicators (KRIs) for management updates.
- Maintained comprehensive process documentation, meeting artifacts, and intake trackers, ensuring readiness for audit, exam, and leadership review requests.
- Coordinated across cross-functional teams including CsIRT, SORT, OSM, and GRC to track dependencies, risks, and deliverables, facilitating smooth execution of operational projects.
- Identified opportunities to streamline workflows and reduce manual reporting effort within Security Operations, improving data quality and reporting efficiency by an estimated **15%**.
- Partnered with technology stakeholders to convert Security Operations data into actionable management insights, enabling clearer understanding of threat landscapes and operational performance.
- Managed multiple workstreams in a fast-paced operational environment, ensuring detail-oriented execution and timely completion of tasks for a global security team.

SKILLS

Business Analysis & Requirements – Requirements Documentation, User Stories, Acceptance Criteria, Stakeholder Coordination, Process Mapping, KPI/KRI Tracking

Security Operations – SecOps Metrics, Dashboard Enhancement, Incident Response Support, Threat Management Concepts, Control Environments

Reporting & Documentation – Operational Reporting, Process Documentation, Meeting Artifacts, Intake Trackers, Evidence Packages

Tools & Technologies – Microsoft 365, Excel, PowerPoint, SharePoint, Power BI, Jira, Azure DevOps

Project Management & Coordination – Workstream Management, Dependency Tracking, Risk Management, Deliverable Tracking

PROJECTS

Security Operations Dashboard Enhancement

- Designed and documented requirements for a new Power BI dashboard to visualize key SecOps metrics, including threat intelligence feeds and incident response times.
- Collaborated with the GRC team to integrate audit-related data points into the dashboard, ensuring compliance and regulatory reporting needs were met.
- Mapped existing manual reporting processes to identify automation opportunities, reducing redundant data collection efforts for the OSM team.

Incident Management Workflow Optimization

- Analyzed the incident response workflow using Jira, documenting current state processes and identifying bottlenecks in P1/P2 escalations.
- Developed standardized templates for post-incident reviews and action item tracking, improving consistency and follow-through for the CsIRT.
- Created a Confluence knowledge base for common incident scenarios and their resolution steps, facilitating faster triage and resolution.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
