PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered business requirements from stakeholders for a corporate strategy initiative, translating them into actionable project deliverables for a 12-person team.
- Developed and presented a **data-driven analysis** of market entry barriers for a client in the technology sector, identifying key growth opportunities and risks.
- Designed and implemented **Python scripts** to automate data extraction and transformation from disparate sources, reducing manual processing time by approximately **40%** for strategic reporting.
- Contributed to the development of client-ready presentations, synthesizing complex analytical findings into clear, concise recommendations for senior management.
- Supported the analysis of qualitative data from stakeholder interviews, deriving key insights on operational challenges and potential strategic improvements.
- Collaborated with experienced consultants to break down complex business problems, evaluating potential solutions and formulating practical recommendations for client adoption.
- Managed an **AWS S3** bucket for storing and retrieving project-related datasets, ensuring proper access controls and data lifecycle policies were maintained.

SKILLS

Strategy & Consulting – Growth Strategy, Market Entry, Mergers and Acquisitions, Organisation Design, Performance Improvement, Value Creation, Corporate Strategy, Business Analysis

Data Analysis & BI – Data Interpretation, Data Analysis, Data Visualisation, Power BI, Tableau, DAX, Power Query, Statistical Analysis, A/B Testing

Programming & Scripting – Python, SQL, R, Java, Spring Boot, pandas, NumPy, scikit-learn

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Project Management & Collaboration – Agile, Scrum, Jira, Confluence, Change Management, Stakeholder Management, Requirements Gathering

PROJECTS

Market Strategy Analysis for Enterprise Client

- Conducted in-depth market research and competitive analysis using **SQL** queries against internal datasets and public sources to identify potential growth areas.
- Developed interactive **Power BI** dashboards to visualize market trends, customer segmentation, and competitive landscapes, enabling strategic decision-making for an enterprise client.
- Synthesized findings into a comprehensive strategy report and presentation, outlining actionable recommendations for market entry and product positioning.

Automated Reporting System for Financial Operations

- Engineered **Python** scripts to automate the generation of daily operational reports from multiple databases, improving data accuracy and reducing reporting cycle time by **35%**.
- Integrated the reporting system with **AWS Lambda** and **CloudWatch** for scheduled execution and monitoring, ensuring reliable delivery of critical business insights.
- Collaborated with operations teams to refine report content and format, ensuring alignment with business needs and regulatory awareness.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
