PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided **1st and 2nd level IT support** for enterprise hardware, software, and system issues, resolving an average of **15 tickets daily**.
- Managed helpdesk tickets using **Jira Service Desk**, prioritising requests and monitoring resolution times against defined SLAs, achieving a **95% on-time resolution rate** for P2 incidents.
- Configured, deployed, and troubleshot **PCs, laptops, printers**, and other IT equipment for new user onboarding and office moves, setting up an average of **5 workstations per week**.
- Supported core business applications including **Microsoft Office Suite**, document management systems, and **Citrix** environments, addressing user queries and configuration issues.
- Assisted with technical setup for meeting rooms, including **audio-visual equipment and video conferencing systems**, ensuring readiness for over **20 corporate meetings weekly**.
- Monitored IT systems and infrastructure health using **Splunk and Dynatrace dashboards**, identifying and escalating potential issues to the senior IT team for proactive resolution.
- Contributed to IT infrastructure improvements and **automation initiatives** by scripting routine tasks in **Python** and documenting processes for the IT support team.

SKILLS

Operating Systems – Windows 11, Linux

Business Applications – Microsoft Office Suite, Exchange, iManage, BigHand, Citrix

Hardware Support – PC/Laptop Imaging, Configuration, Deployment, Printers, Audio-Visual Equipment

ITSM Tools – Jira Service Desk, ServiceNow, Confluence

Monitoring & Scripting – Splunk, Dynatrace, Python, Shell Scripting

Infrastructure – Active Directory, Azure, Windows Server, Networking Fundamentals

PROJECTS

Enterprise IT Support System Enhancement (HCL Technologies)

- Developed **Python scripts** to automate the generation of daily operational reports from **Splunk logs**, reducing manual effort by **8 hours per week** for the support team.
- Implemented a **new ticketing workflow in Jira Service Desk** for hardware requests, standardising the intake process and improving tracking accuracy by **30%**.
- Created comprehensive **runbooks and troubleshooting guides** for common end-user issues, which were integrated into the team's Confluence knowledge base.

User Onboarding Automation Framework (HCL Technologies)

- Designed and scripted an automated user onboarding process using **Python and shell scripting**, covering workstation setup, account creation in **Active Directory**, and software deployment for new hires.
- Integrated the automation framework with **Jira** for ticket management and status tracking, significantly reducing the average time to provision a new employee's IT environment from **2 days to under 4 hours**.
- Collaborated with HR and IT operations teams to refine requirements and ensure seamless integration into existing onboarding procedures.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026
