# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Performed routine microbiological testing on raw materials, in-process samples, and finished products, adhering to established SOPs.
- Collected and analysed environmental monitoring samples from cleanroom areas and manufacturing suites, ensuring cGMP compliance.
- Reviewed laboratory data for accuracy and completeness, flagging any Out-of-Specification (OOS) or Out-of-Trend (OOT) results for further investigation.
- Supported microbiological validation activities and method transfer protocols by preparing samples and executing test procedures.
- Collaborated with Quality Assurance and Manufacturing teams to discuss test results and support deviation investigations.
- Maintained accurate and detailed laboratory records and documentation, contributing to audit trail integrity for regulatory compliance.
- Managed competing priorities within the laboratory environment, ensuring timely completion of assigned testing schedules.

## SKILLS

**Microbiology** – Microbiological Testing, Environmental Monitoring, cGMP Compliance, Laboratory Data Review, SOP Adherence

**Quality Control** – OOS Investigations, OOT Investigations, Method Transfer, Validation Support, Documentation

**Laboratory Operations** – Sample Collection, Data Analysis, Record Keeping, Regulatory Compliance, Cleanroom Monitoring

**Cross-functional Collaboration** – Quality Assurance, Manufacturing, Teamwork, Communication

**Technical Skills** – Microsoft Excel, LIMS (Laboratory Information Management System) Concepts

## PROJECTS

### Environmental Monitoring Program Enhancement

- Developed and implemented an enhanced environmental monitoring strategy for critical cleanroom zones, incorporating statistical process control techniques.
- Analyzed historical monitoring data to identify trends and potential contamination sources, leading to a 15% reduction in minor alert investigations.
- Documented revised procedures and trained laboratory personnel on new sampling techniques and data interpretation methods.

### Microbiological Data Review Automation

- Designed and built a Python script to automate the initial review of routine microbial count data, flagging potential issues based on predefined criteria.
- Integrated the script with sample submission logs, reducing manual data entry time by approximately 2 hours per week for the QC team.
- Collaborated with senior analysts to refine the script's logic and ensure alignment with regulatory expectations for data integrity.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
