HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented end-to-end automated test suites for web applications using **Playwright** and **TypeScript**, covering critical user flows and reducing manual regression testing time by **40%**.
- Developed reusable test components and frameworks in **JavaScript**, enabling test coverage expansion across multiple projects and reducing redundant code by **30%**.
- Integrated automated test suites into **Jenkins** CI/CD pipelines, configuring test execution environments and enabling continuous feedback loops for development teams.
- Collaborated with developers to identify automation opportunities within new feature development cycles, contributing to a **15%** increase in automated test coverage for new features.
- Debugged and troubleshot test failures, effectively distinguishing between product defects and test infrastructure issues, reducing average issue resolution time by **20%**.
- Participated in code reviews for both production code and test automation scripts, ensuring adherence to coding standards and improving overall code quality.
- Containerized test execution environments using **Docker**, facilitating consistent and reproducible test runs across development, staging, and CI/CD stages.

SKILLS

Web Automation – Playwright, Cypress, Selenium, Appium, Detox, XCUITest, BrowserStack

API Testing – REST Assured, Postman

Languages – JavaScript, TypeScript, Python, Java

CI/CD – Jenkins, GitLab CI, GitHub Actions

Version Control – Git

Methodologies – Agile, Scrum

Tools – Jira, Confluence

PROJECTS

Test Automation Framework for Media Platform

- Developed a scalable test automation framework using **Playwright** and **TypeScript** to support the continuous integration of new content features for a digital publishing platform.
- Implemented comprehensive end-to-end and integration tests that cover article publishing, user authentication, and subscription management workflows, achieving **85%** automation coverage for critical paths.
- Configured the framework for seamless integration with **Jenkins** pipelines, enabling automated test execution on every code commit and providing rapid feedback on build stability.

API Test Suite for Content Management System

- Built an API test suite using **REST Assured** (Java) to validate the functionality and performance of backend services powering a content management system.
- Designed and executed integration tests for RESTful APIs, focusing on data integrity and error handling across various content types, reducing API-related bugs by **25%**.
- Managed test data creation and teardown procedures, ensuring test independence and reliability for over **500** API endpoints.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
