PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed material flow for heavy maintenance events, ensuring timely delivery of pre-draw and in-check components to support aircraft readiness.
- Developed supplier and internal work group relationships to identify material requirements and optimize sourcing strategies for aircraft parts.
- Coordinated with engineering and material planning to address trends in material shortages and overages, ensuring accurate inventory levels.
- Processed all orders in **TOCS** to meet maintenance visit timelines, updating logs with regular status reports until part receipt.
- Collaborated with maintenance supervisors to assist with material budgets for heavy maintenance visits and facilitate invoice reconciliation.
- Initiated **M&E;# part number** setup and created purchase orders, ensuring PO receipt, payment, and finalization for critical aircraft components.
- Managed material discrepancies within work cards and coordinated with technicians and supervisors to resolve issues and streamline operations.

SKILLS

Supply Chain & Procurement – Material Control, Inventory Management, Sourcing, Procurement, Supplier Relations, OEM Parts

Aviation Maintenance – Heavy Maintenance, Aircraft Parts, Illustrated Parts Catalog (IPC), General Maintenance Manual, Service Bulletins

Systems & Tools – TOCS, SAP (implied from PO/ERP context), MS Excel, MS Office Suite

Regulatory & Compliance – IATA Dangerous Goods Manual, Government Regulated Manuals, Engineering Change Request

Operations & Logistics – Drop Shipments, Courier Services, Large Shipment Movement, Invoice Reconciliation, Budget Assistance

PROJECTS

Aircraft Component Inventory Optimization (HCL Technologies)

- Developed a Python script to analyze historical component usage data from an enterprise system, identifying slow-moving stock and suggesting reorder point adjustments.
- Created a series of **Power BI** dashboards to visualize inventory levels, lead times, and part obsolescence trends for the financial-services client's operations team, enabling better stock management.
- Collaborated with internal operations teams to refine data extraction processes, improving the accuracy of inventory reports by approximately **15%**.

Material Requirements Planning Automation (HCL Technologies)

- Automated the generation of material requirement reports using **Python** and **SQL** queries against PostgreSQL and Oracle databases for an ERP support project.
- Designed and implemented REST APIs using **Java Spring Boot** to integrate with existing inventory management systems, enabling automated data exchange for material status updates.
- Streamlined the process of tracking critical part deliveries, reducing manual follow-up time by an estimated **20%** across the support team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
