

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and executed a **Root Cause Failure Analysis Program**, reducing general equipment breakdowns by **18%** through systematic investigation and implementation of corrective actions.
- Managed daily **start-up checks** on plant machinery, ensuring operational readiness and identifying potential issues before production commencement.
- Executed repairs and maintenance on critical plant equipment, ensuring all breakdowns were addressed swiftly and safely, contributing to a **99.5%** uptime for key production lines.
- Implemented and meticulously followed a **preventative maintenance schedule**, increasing machinery lifespan and reducing reactive maintenance costs by **15%**.
- Collaborated with Site Engineering Managers and Planners to deliver compliant, reliable, and efficient operations across all plant and equipment, directly supporting the factory's smooth running.
- Ensured all maintenance and servicing activities were performed in an efficient, safe, and hygienic manner, aligning with **food manufacturing environment** standards and company policies.

SKILLS

Maintenance & Reliability – Root Cause Failure Analysis (RCFA), Preventative Maintenance (PM), Predictive Maintenance (PdM), Work Planning, Schedule Adherence, KPI Monitoring, Equipment Servicing, Machine Repairs, Start-up Checks

Manufacturing Operations – Fast-Paced Manufacturing Environment, Food Manufacturing Environment, Plant Operations, Production Line Support, Hygiene Standards, Health & Safety Compliance

Technical Skills – Refrigeration Systems, Plumbing, Electrical Systems, Mechanical Systems, Machinery Maintenance

Software & Tools – Jira, Confluence, Splunk, Dynatrace, CloudWatch, Jenkins, Git, Docker

Programming & Scripting – Python, Java, SQL

Cloud & Infrastructure – AWS (EC2, S3, Lambda), Linux

Data Analysis & BI – Power BI, Tableau, DAX, R, pandas, NumPy

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Plant Equipment Reliability Improvement Initiative

- Designed and implemented a proactive maintenance strategy focusing on critical machinery within the manufacturing plant, incorporating scheduled inspections and component replacements.

- Analyzed historical breakdown data using **Python** and **pandas** to identify recurring failure patterns, informing the preventative maintenance schedule and reducing unplanned downtime.
- Developed a system for tracking maintenance activities and record completion using **Jira** and **Confluence**, ensuring compliance and generating reports for management review.

Production Operations Dashboard

- Created interactive dashboards in **Power BI** to visualize key performance indicators for plant operations, including machine uptime, production output, and maintenance response times.
- Integrated data from various sources, including sensor readings and maintenance logs, using **Power Query** to prepare data for analysis and reporting.
- Provided real-time operational insights to engineering and management teams, enabling data-informed decisions to improve overall factory efficiency and safety.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
