PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Provided technical advice and troubleshooting for vehicle issues to drivers, leveraging mechanical understanding to minimize downtime and ensure fleet operational efficiency.
- Managed service bookings and breakdown queries, coordinating with repair centres to confirm necessity of work and expedite repairs, achieving **95%** on-time completion for scheduled maintenance.
- Maintained accurate daily logs of all vehicle maintenance tasks within **internal systems**, ensuring data integrity for reporting and operational analysis.
- Collaborated within a supportive **operations team** to meet service targets, contributing to a **15%** increase in customer satisfaction scores over six months.
- Facilitated clear communication of technical repair requirements to **service providers**, ensuring efficient and effective execution of vehicle maintenance.
- Developed automated **Python scripts** to streamline data entry for vehicle maintenance logs, reducing manual processing time by **30%**.

SKILLS

Vehicle Support – Technical Advice, Maintenance Coordination, Garage Liaison, Breakdown Management, Vehicle Care.

System Operations – Internal Systems, Daily Logs, Operations Team, Service Targets, Customer Satisfaction.

Motor Industry – Workshop, Dealership, Vehicle Technician, Service Advisor, Fleet Management.

Core IT Skills – Microsoft Excel, Microsoft Word, Data Entry, Python Scripting.

General Engineering – Mechanical Qualification, Modern Vehicles, Technical Insight.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Fleet Management & Maintenance Dashboard

- Developed a **Power BI** dashboard to visualize key fleet maintenance metrics, including vehicle uptime, scheduled service adherence, and repair costs.
- Integrated data from multiple sources using **Power Query** to create a unified view of fleet health, enabling proactive identification of potential issues.
- Published interactive reports to business stakeholders, facilitating data-informed decisions on fleet operations and preventative maintenance strategies.

Vehicle Diagnostics Automation Platform

- Automated the logging and initial diagnostics of common vehicle faults using **Python scripts**, reducing manual diagnostic time by **25%**.
- Created a RESTful API using **Flask** to integrate diagnostic data with the main fleet management system, improving data flow and accessibility.
- Implemented basic data validation checks on incoming diagnostic reports to ensure accuracy before logging within the **PostgreSQL** database.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
