+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Automated deployment processes for AI-driven applications using **GitHub Actions**, reducing manual deployment time by **40%**.
- Designed and maintained **CI/CD pipelines** on **AWS**, integrating **Docker** containers for consistent build and deployment environments across development and production.
- Implemented comprehensive monitoring and alerting for production infrastructure using **Azure Monitor** and **Application Insights**, improving incident detection time by **30%**.
- Developed **Python** scripts to automate infrastructure provisioning and configuration management, supporting the team's adoption of **Infrastructure as Code** practices.
- Collaborated with cross-functional teams to define and implement **DevOps and security best practices**, including automated security scanning with **Snyk**.
- Supported enterprise-scale **microservice-based cloud applications**, ensuring high availability and performance through proactive monitoring and incident response.

SKILLS

DevOps & CI/CD – GitHub Actions, Azure DevOps, Jenkins, Docker, Kubernetes, Helm, Kustomize, Kyverno, CNI

Cloud Platforms – Azure, AWS

Infrastructure as Code – Bicep, Terraform, Ansible

Programming & Scripting – Python, Bash

Monitoring & Logging – Azure Monitor, Application Insights, Grafana, Prometheus, Elasticsearch

Security – Snyk, Bandit, Secrets Management

Collaboration & Tools – JIRA, Confluence, Miro, Teams

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Cloud Deployment Pipeline

- Engineered a **CI/CD pipeline** using **GitHub Actions** to automate the build, test, and deployment of containerized applications to **Azure Kubernetes Service**.
- Integrated **Docker security scanning** with **Snyk** into the pipeline, identifying and mitigating critical vulnerabilities before deployment.

- Developed **Python** scripts for automated environment setup and configuration, ensuring consistency across development, staging, and production.

Production Monitoring and Alerting System

- Designed and implemented a centralized monitoring solution using **Azure Monitor** and **Prometheus** for a fleet of microservices.
- Configured alerts based on key performance indicators and error rates, reducing the mean time to detect critical issues by **25%**.
- Created custom dashboards in **Grafana** to visualize system health, resource utilization, and application performance for engineering and operations teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
