PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided first-level IT support for a **13,000+ employee** global industrial technology company, resolving issues across **Microsoft OS, macOS, and Microsoft 365** products to maintain operational continuity.
- Served as the primary IT point of contact for the Cork, Ireland office, supporting **audio/visual equipment, computers, printers**, and various **peripherals**, ensuring seamless daily operations.
- Acted as a key liaison between the Service Delivery team and other IT groups, including **Infrastructure, Security, and Application Development**, to expedite problem resolution and implement solutions.
- Administered and maintained enterprise applications and hardware solutions, performing installations, configurations, and daily operations management to support business objectives.
- Collaborated with internal and external support organizations to troubleshoot and resolve complex network connectivity issues, ensuring stable communication channels.
- Developed and implemented innovative IT solutions in conjunction with the Service Delivery Manager, aligning technology capabilities with evolving business requirements for enhanced productivity.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Support & Enhancement Platform

- Enhanced a core enterprise application suite used by a financial services client by developing new features and resolving production defects using **Java Spring Boot** and **REST APIs**.
- Automated routine system monitoring and reporting tasks using **Python scripts**, reducing manual effort by an estimated **15%** and improving data accuracy for operational dashboards.

- Managed application lifecycle through **Jenkins CI/CD pipelines**, ensuring consistent code quality via Git branching strategies and code reviews for a stable production environment.

Business Intelligence Dashboard for Operations Monitoring

- Designed and deployed interactive **Power BI dashboards** for a financial services operations team, visualizing key performance indicators for transaction processing and system health.
- Developed complex **DAX measures** and performed data modeling in Power BI to aggregate and analyze large datasets from PostgreSQL and Oracle databases, providing actionable insights.
- Collaborated with business analysts to gather requirements and translate them into technical specifications for operational reporting, supporting **GDPR-aware** data handling and audit trails.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
