

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed scalable **Python** applications using **FastAPI** and **Pydantic**, contributing to AI-driven data intelligence features and achieving a **15%** improvement in data processing efficiency.
- Designed and implemented **REST APIs** for Acuity's digital ecosystem, integrating with core business systems and enhancing inter-service communication by **20%**.
- Automated deployment processes for containerized solutions on **AWS** using **Docker** and basic CI/CD principles, reducing manual deployment time by **30%**.
- Collaborated within **Agile Scrum** teams, participating in daily stand-ups, sprint planning, and code reviews to deliver iterative software enhancements.
- Supported the integration and maintenance of CI/CD pipelines using **Jenkins** and **Git** branching strategies, ensuring consistent code deployment across environments.
- Authored comprehensive unit and integration tests using **PyTest** with TDD practices, increasing code coverage by **25%** and reducing post-deployment defects.

SKILLS

Languages – Python, Java, SQL, R, Golang, Rust

Frameworks/Libraries – FastAPI, Flask, Pydantic, Spring Boot, pandas, NumPy, scikit-learn, LangChain, Hugging Face, OpenAI API

Cloud & DevOps – AWS, Azure, GCP, Docker, Kubernetes, CI/CD, Jenkins, GitHub Actions, ArgoCD, GitOps

Databases – PostgreSQL, MySQL, Oracle, NoSQL

Methodologies – Agile, Scrum, Kanban, TDD, BDD

API & Security – REST APIs, OpenAPI/OAuth2, AuthN/AuthZ

Tools – Git, Jira, Confluence, Splunk, Dynatrace, PyTest, VSCode

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

AI-Powered Transaction Monitoring Platform

- Developed a **Python**-based microservice using **FastAPI** to ingest and analyze high-volume financial transaction data for anomaly detection.
- Integrated machine learning models for real-time fraud pattern identification, improving detection accuracy by **18%** over previous rule-based systems.

- Deployed the service using **Docker** on **AWS**, ensuring high availability and scalability for critical financial operations.

Automated ERP Integration Service

- Built a **Java Spring Boot** application to automate data synchronization between the core ERP system and subsidiary financial platforms via **REST APIs**.
- Implemented robust error handling and reconciliation workflows, reducing data discrepancies by **22%** and manual intervention time.
- Managed CI/CD pipelines for this service using **Jenkins**, ensuring reliable and frequent updates to the integration logic.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
