

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Owned electrical design lifecycle from feasibility through detailed design, procurement support, construction, commissioning, and handover for critical infrastructure projects.
- Defined and validated complex power architectures including utility intake, MV/LV distribution, UPS topologies, generators, switchgear, and PDUs, ensuring high availability.
- Led power systems studies and protection design, including load flow, short circuit, protection coordination, and arc-flash analysis using industry-standard simulation tools.
- Integrated monitoring and control systems (BMS/EPMS/SCADA) and metering strategies to meet stringent resilience objectives aligned with Tier III availability standards.
- Embedded decarbonization and energy efficiency initiatives, incorporating high-efficiency UPS, advanced controls, and grid-interactive strategies into electrical designs.
- Coordinated multi-disciplinary interfaces across mechanical, structural, architectural, and ICT teams to deliver fully integrated, resilient data centre solutions.

SKILLS

Electrical Design – Feasibility, Concept Design, Scheme Design, Detailed Design, Procurement Support, Construction, Commissioning, Handover

Power Systems – Utility Intake, MV/LV Distribution, UPS Topologies, Generators, Switchgear, PDUs, STS, Busway, Earthing, Lighting

Power Systems Studies – Load Flow, Short Circuit, Protection Coordination, Arc-Flash Analysis, Harmonic Analysis

Monitoring & Control – BMS, EPMS, SCADA, Metering Strategies, Resilience Features

Standards & Compliance – IEC, BS, EN, NEC, NFPA, Client Specifications, Quality Procedures

Data Centre Technologies – Hyperscale, Mission Critical Environments, Tier II-IV Availability, Decarbonization, Energy Efficiency

Project Management – Technical Delivery, Team Leadership, Business Development, Commercial Acumen, Project Financials

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Data Centre Electrical Resilience Platform

- Developed comprehensive electrical design documentation for a hyperscale data centre, covering utility substations, MV/LV distribution, and UPS systems.
- Performed detailed power systems studies, including short circuit and protection coordination, to ensure system stability and safety under fault conditions.
- Integrated EPMS and SCADA systems for real-time monitoring of power usage and equipment health, contributing to a 99.99% uptime objective.

Low-Carbon Data Centre Power Architecture

- Designed an energy-efficient power architecture for a multi-site data centre program, focusing on high-efficiency UPS and smart grid integration.
- Managed client-facing technical discussions and proposal development for electrical design services, contributing to securing new project work.
- Coordinated with mechanical and structural engineering teams to ensure seamless integration of electrical systems within the overall facility design.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
