

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Java Spring Boot** microservices for a financial services operations dashboard, focusing on **transaction monitoring** and improving processing uptime by **15%**.
- Automated data extraction and reporting tasks using **Python scripting**, reducing manual effort for reconciliation workflows by approximately **20%** per cycle.
- Managed production incidents and SLA adherence for enterprise applications, performing root cause analysis using **Splunk** and **Dynatrace**, resolving over **50 P1/P2 incidents**.
- Implemented **SQL queries** and schema modifications in **PostgreSQL** for data validation and integration across enterprise business systems, supporting critical **ERP** module updates.
- Designed and deployed **Power BI dashboards** with complex **DAX measures** and data models, providing actionable insights to business stakeholders and improving decision-making speed by an estimated **10%**.
- Collaborated with cross-functional teams to support **change-control management** for enterprise systems, coordinating UAT and post-go-live activities for system integrations.

SKILLS

Programming Languages – Python, Java, SQL, R, DAX

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Data Visualization – Power BI, Tableau

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, Linux

Financial Concepts – Risk Analysis, Risk Modelling and Scenario Analysis, Derivative Valuation Models, Behavioural Models, VaR, xVA models

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Financial Risk Model Validation Platform

- Developed a Python-based framework for validating **risk measurement models**, integrating statistical tests and data analysis modules.
- Automated the generation of validation reports using **R scripts**, incorporating quantitative analysis and summarizing findings for stakeholder review.

- Performed data analysis on historical financial product performance to support the validation of **derivative pricing models**.

Payments Operations Monitoring Dashboard

- Engineered a **Java Spring Boot** application to process and monitor financial transaction messages, providing real-time operational alerts.
- Built interactive visualizations in **Power BI** to display transaction flow status, reconciliation discrepancies, and key performance indicators for a financial services client.
- Wrote **SQL scripts** to extract and transform data from operational databases, ensuring data integrity for reporting and audit trail purposes.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
