PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Captured and validated **actuarial liability data** for regulatory reporting, ensuring 99.8% data integrity.
- Automated the production of **economic scenarios for IFRS and SII reporting** using Python scripting, reducing manual effort by 40%.
- Assisted in the production and validation of **actuarial reserves for IFRS and SII**, contributing to timely financial statement submissions.
- Supported the streamlining and automation of **actuarial reporting processes**, enhancing efficiency and reducing report generation time by 15%.
- Developed and maintained **risk dashboards and committee papers** for senior management, improving visibility into key risk metrics.
- Collaborated with cross-functional teams to provide **actuarial support on project initiatives**, contributing to successful project delivery.

SKILLS

Actuarial & Risk Management – Actuarial Liability Data, Economic Scenarios, IFRS Reporting, SII Reporting, Actuarial Reserves, Solvency II, Standard Model, Internal Model, ORSA, Risk Dashboards, Risk Management Communications

Programming & Automation – Python, Java, Spring Boot, SQL, REST APIs, Shell Scripting

Data Analysis & Visualization – Power BI, DAX, Power Query, Tableau, R, pandas, NumPy, scikit-learn, Data Modelling, Data Warehousing

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Enterprise Systems & Support – ERP Integration Support, Production Support, Monitoring (Splunk, Dynatrace), Incident Response, Change Management, UAT Support, Jira, Confluence, Linux

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Automated Actuarial Reporting Pipeline

- Developed a Python-based pipeline to automate the generation and validation of **actuarial liability data** and **economic scenarios** for quarterly IFRS and SII reports.
- Integrated **SQL queries** against PostgreSQL to extract and transform data required for reserve calculations, improving data accuracy and consistency.

- Implemented data validation checks and error handling to ensure the integrity of generated reports, contributing to a **99.9% accuracy rate**.

Risk Management Dashboard for Financial Operations

- Designed and built interactive **dashboards in Power BI** to visualize key risk indicators and solvency capital projections for financial operations.
- Developed complex **DAX measures** to calculate and present solvency movement analysis and support the production of ORSA documentation.
- Collaborated with actuarial and risk teams to define reporting requirements and deliver actionable insights, facilitating better decision-making for **risk committee papers**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
