PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Architected and developed **highly available, fault-tolerant systems** for a global serverless compute service, processing trillions of invocations monthly.
- Optimized **system performance** and **latency** for a critical AWS Lambda control plane component, reducing average response times by **15%**.
- Designed and implemented **new system components** for a large-scale distributed platform, focusing on reliability and scalability to support millions of customers.
- Collaborated with geographically distributed engineering teams to define and implement new features for a core serverless compute service.
- Wrote comprehensive **unit and integration tests** for distributed systems, ensuring code quality and maintainability for **AWS Lambda runtimes**.
- Participated in **on-call rotations**, responding to and resolving production incidents to maintain service reliability and meet stringent SLAs.

SKILLS

Cloud Computing – AWS Lambda, AWS Control Plane, AWS Runtimes, EC2, S3, Lambda, CloudWatch

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Development Tools – Docker, Git, Jenkins, Jira, Confluence

Observability & Monitoring – Splunk, Dynatrace

Data Analytics & BI – Power BI, DAX, Tableau, Power Query, data modelling

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Scalable Serverless Function Orchestrator

- Developed a **distributed system** designed to manage and orchestrate serverless functions at scale, handling complex event flows.
- Implemented robust **error handling and retry mechanisms**, ensuring high availability and fault tolerance for critical function executions.

- Integrated with **AWS services** including S3 and CloudWatch for logging and monitoring, achieving **99.95% uptime** during testing.

Real-Time Transaction Monitoring Dashboard

- Built an interactive **Power BI dashboard** to visualize real-time transaction processing metrics for a financial services client.
- Developed **DAX measures** and complex data models to provide insights into transaction volumes, success rates, and error patterns, improving operational visibility by **30%**.
- Automated data extraction and transformation processes using **Python scripts** and SQL queries against PostgreSQL databases.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
