+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Managed production support and incident response for enterprise applications, resolving P1/P2 incidents and maintaining SLAs across services monitored by **Splunk** and **Dynatrace**.
- Developed Python scripts to automate ETL processes and generate scheduled reports, improving data processing efficiency by **30%** for operational dashboards.
- Enhanced existing Java Spring Boot services by implementing new features and fixing bugs in REST APIs, contributing to a **15%** reduction in critical bugs post-release.
- Supported and integrated with enterprise business systems, including ERP modules, facilitating cross-system data flows via **REST APIs** and direct database integrations.
- Designed and deployed interactive dashboards using **Power BI**, incorporating **DAX** measures and complex data models to visualize key performance indicators for business stakeholders.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for interconnected enterprise systems, ensuring smooth post-go-live operations.

SKILLS

Cloud Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

Programming & Scripting – Python, Java, Spring Boot, SQL, R

Databases – PostgreSQL, MySQL, Oracle

CI/CD & DevOps – Jenkins, Git, Linux, Shell Scripting

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

BI & Data Analytics – Power BI, DAX, Tableau, pandas, NumPy, scikit-learn

Project Management & Collaboration – Jira, Confluence, Agile/Scrum

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Cloud Operations Automation Framework

- Developed a Python-based automation framework to streamline cloud resource provisioning and configuration management on **AWS**, reducing manual deployment time by **40%**.
- Integrated the framework with **Jenkins** CI/CD pipelines for automated testing and deployment of infrastructure-as-code scripts, enhancing deployment reliability.

- Implemented comprehensive logging and monitoring using **CloudWatch**, enabling proactive identification of operational issues and performance bottlenecks.

Financial Transaction Monitoring Dashboard

- Built a real-time operational dashboard using **Power BI** to monitor financial transaction flows and identify anomalies, supporting a financial-services client.
- Developed custom **DAX** measures to calculate key metrics for reconciliation workflows and transaction success rates, providing actionable insights to operations teams.
- Integrated with PostgreSQL databases to extract and transform transaction data, ensuring data integrity and enabling comprehensive audit trails for regulatory awareness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
