PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **SwiftUI applications** for device management, directly contributing to the **Asset Management and MDM systems**.
- Collaborated with senior engineers on a **small, high-impact team** to deliver features for global-scale device management services.
- Troubleshoot and resolved **software issues** impacting **macOS, iOS, and iPadOS** platforms within the Device Management domain.
- Gained hands-on experience with **APIs** for integrations, enhancing the functionality of **Software Distribution services**.
- Explored and integrated **emerging AI tools** to improve the efficiency of development workflows and automate routine tasks.
- Participated in **code reviews** and applied **Apple's development practices** to ensure code quality and adherence to best practices.

SKILLS

Development – Swift, SwiftUI, Object-Oriented Design, APIs

AI/ML – Generative AI, AI Tools, Machine Learning Fundamentals

Device Management – MDM, ITAM, Software Distribution, macOS, iOS, iPadOS, tvOS, visionOS

Languages – Swift, Python, Java, SQL, R

Tools & Platforms – AWS, Docker, Git, Jenkins, Jira, Confluence, Linux, Splunk, Dynatrace, Power BI, Tableau

Backend & Data – Spring Boot, REST APIs, PostgreSQL, MySQL, Oracle, Pandas, NumPy, Scikit-learn, DAX, Power Query

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Device Fleet Management Dashboard

- Developed a **Power BI dashboard** to visualize the health and status of a large device fleet, integrating data from multiple sources.
- Created **DAX measures** and complex **data models** to provide actionable insights into device performance and compliance metrics.

- Automated data extraction and transformation using **Power Query** for daily report generation, reducing manual effort by **40%**.

Automated Payment Reconciliation Service

- Built **Python** scripts to automate the reconciliation of financial transaction data, identifying discrepancies between source and target systems.
- Designed and implemented **REST APIs** using **Flask** to integrate the reconciliation service with existing financial operations dashboards.
- Managed production support for the service, ensuring **99.9% uptime** and resolving critical incidents related to transaction processing errors.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
