+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and deployed **production ML/GenAI systems**, integrating **LLM-based solutions** like RAG and prompt engineering to address enterprise use cases, resulting in a **15% improvement** in automated response accuracy.
- Built and maintained **automated ML pipelines** encompassing data preparation, model training, evaluation, and production deployment using **Python** and **AWS** services.
- Developed **generative AI solutions**, specifically implementing **RAG (Retrieval-Augmented Generation)** patterns to enhance knowledge retrieval for internal enterprise applications, improving information access efficiency by **20%**.
- Managed the full ML lifecycle for predictive analytics models, from data wrangling and experimentation to model development and production deployment within a **fast-paced, shipping-focused environment**.
- Integrated **ML systems** with Apple's enterprise data platform infrastructure, ensuring seamless data flow and enabling robust analytics for business decision-making.
- Collaborated with **cross-functional teams** and business stakeholders to define requirements, scope, and deliver AI and ML systems that solved complex business problems, leading to the successful launch of **3 key initiatives**.

SKILLS

ML Engineering – Generative AI, LLMs, RAG, Prompt Engineering, Predictive Analytics, Anomaly Detection, Forecasting, Model Development, Model Deployment, ML Pipelines, Data Wrangling, Experimentation, Production ML, Agentic Frameworks

Programming Languages – Python, SQL

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Data & BI Tools – Power BI, DAX, Power Query, Tableau, Data Warehousing, Business Intelligence

ML Libraries & Frameworks – Scikit-learn, pandas, NumPy, LangChain, LangGraph

Software Development – REST APIs, Docker, Git, CI/CD, Jenkins

Data Systems – Distributed Data Systems, Large-Scale Data Processing, PostgreSQL, MySQL, Oracle

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Generative AI Platform

- Developed a **generative AI platform** for enterprise knowledge management, integrating **LLMs** with internal document repositories using **RAG** techniques.
- Engineered **prompt engineering** strategies to optimize query responses and enhance user experience, leading to a **30% reduction** in information retrieval time.
- Designed and implemented **automated pipelines** for data ingestion and model fine-tuning on **Python**, ensuring scalable and efficient AI solution deployment.

ML-Powered Anomaly Detection System

- Built a **production ML system** to detect anomalies in large-scale enterprise data streams, utilizing **Python** with **scikit-learn** and **pandas**.
- Deployed the system on **AWS** infrastructure, establishing monitoring and alerting mechanisms to ensure **99.9%** uptime and rapid incident response.
- Collaborated with business stakeholders to define anomaly thresholds and integrate model outputs into existing **BI dashboards** for actionable insights.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
