PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Managed production incidents for enterprise applications, reducing P1/P2 escalations by **15%** through proactive monitoring with **Splunk** and **Dynatrace**.
- Automated data validation and reporting tasks using **Python scripting**, decreasing manual effort by **20 hours** per week for financial operations teams.
- Developed and maintained **Java Spring Boot** REST APIs for inter-service communication, supporting seamless integration of new features into a core enterprise platform.
- Configured and managed **AWS EC2** instances and **S3** storage, ensuring high availability and efficient data access for distributed applications.
- Coordinated system configuration updates and post-go-live support for interconnected enterprise systems, adhering to strict **change-control management** processes.
- Designed and implemented interactive dashboards and data visualizations using **Power BI** and **DAX**, enabling stakeholders to track key performance indicators with **99% accuracy**.

SKILLS

Networking Fundamentals – IPv4, IPv6, BGP, Layer 2 technologies, LAN/WAN networking

Network Hardware – Cisco, Arista, Palo Alto, Fortinet, Juniper

Operations & Support – Incident Management, Production Support, SLA Management, Monitoring, Documentation, Change Management

Cloud & Containerization – AWS (EC2, S3, Lambda), Docker

Programming & Scripting – Python, Java, Spring Boot, SQL, Bash Scripting

Data Visualization & BI – Power BI, DAX, Tableau, Power Query

DevOps & CI/CD – Jenkins, Git, Agile/Scrum

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Global Network Operations Dashboard

- Developed a real-time monitoring dashboard using **Power BI** to visualize network traffic and performance metrics across global data centers and campuses.
- Integrated data from multiple network devices and systems via **Python scripts** and APIs to provide a unified operational view.

- Implemented automated alerts for critical network events, enabling faster incident response and reducing downtime by an estimated **10%**.

Automated Network Health Monitoring System

- Created automated checks and diagnostic scripts in **Python** to assess the health of network infrastructure components.
- Configured **Jenkins** pipelines to schedule and execute these health checks, integrating with **AWS CloudWatch** for logging and alerting.
- Documented operational procedures and troubleshooting guides for network health issues, improving team efficiency in resolving common problems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
