PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Swift**-based automated test suites for **iOS** and **macOS** applications, increasing test coverage by **30%**.
- Implemented **GenAI** models for intelligent defect analysis, reducing manual triage time for P1/P2 incidents by an average of **4 hours** per week.
- Designed and executed comprehensive automated testing strategies using the **XCTest framework**, ensuring **99.9%** pass rate for critical user flows.
- Integrated automation frameworks with **CI/CD pipelines**, enabling continuous deployment and real-time reporting of test execution results.
- Collaborated with cross-functional teams to define test requirements and implement accessibility testing best practices, improving product usability for diverse user groups.
- Fine-tuned **machine learning models** for enhanced test generation, identifying edge cases that had previously evaded manual testing, leading to a **15%** reduction in critical bugs post-release.

SKILLS

Programming Languages – Swift, Python, Java, SQL, R, DAX

Testing Frameworks – XCTest, pytest

AI/ML – GenAI, Large Language Models (LLMs), machine learning model training, fine-tuning, scikit-learn, pandas, NumPy

Platforms & Tools – iOS, macOS, AWS, Docker, Git, Jenkins, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Development Practices – Automated testing, CI/CD, REST APIs, Agile/Scrum, test strategy design, localization testing, accessibility testing, data modelling, data warehousing

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Intelligent Test Case Generation Platform

- Architected a system to generate automated test cases using **LLM** capabilities, processing natural language requirements to create executable scripts.
- Integrated **GenAI** models with the existing **Swift** test suite, enabling dynamic adaptation of tests based on evolving feature sets and user feedback.

- Achieved a **25%** increase in early defect detection by automating the generation of complex, scenario-based test data.

Cross-Platform Automation Framework

- Developed a unified automation framework in **Swift** to support testing across **iOS** and **macOS** platforms, streamlining release engineering efforts.
- Implemented **XCTest** integration within a **Jenkins CI/CD** pipeline, providing automated execution and reporting for nightly builds.
- Reduced regression testing cycles by **40%** through the systematic automation of core application functionalities.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
