

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **enterprise-level data applications** on **distributed systems**, focusing on low-latency analytics and AI insights, achieving **99.95% uptime**.
- Designed and implemented **scalable data services** integrating **Generative AI capabilities**, enhancing data accessibility and actionability for internal business partners.
- Engineered **high-throughput data pipelines** using **Python** and **SQL** for ETL processes, improving data ingestion efficiency by **30%**.
- Collaborated with cross-functional teams to define requirements for **data platforms**, translating business needs into technical specifications for new features.
- Managed **production support** for critical data systems, resolving P1/P2 incidents using **Splunk** and **Dynatrace** to maintain service level agreements (SLAs) of **99.9%**.
- Implemented **RESTful API development** using **Java Spring Boot** for system integrations, facilitating data exchange between interconnected enterprise platforms.

SKILLS

Programming Languages – Python, Java, Scala, SQL, R
Data Platforms & Databases – Snowflake, BigQuery, PostgreSQL, MySQL, Oracle
Cloud & Distributed Systems – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes
Data Engineering & BI – ETL, Data Warehousing, Power BI, Tableau, DAX, Power Query
AI & Machine Learning – Generative AI, LLMs, Prompt Engineering, Scikit-learn
Development Practices – RESTful API Development, Test-Driven Development (TDD), CI/CD, Git, Jenkins
Observability & Support – Splunk, Dynatrace, Incident Response, Change Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Real-Time Analytics Platform for Financial Operations

- Developed a **payments operations dashboard** to monitor transaction flows and provide operational alerting for failed payment messages, improving issue detection time by **40%**.
- Automated data validation and reconciliation workflows using **Python** scripts and **SQL** queries against PostgreSQL and Oracle databases.

- Integrated with enterprise business systems via **REST APIs** to aggregate operational data, ensuring audit trail integrity and GDPR compliance.

Scalable Data Ingestion and Processing Service

- Designed and built a **distributed data ingestion service** using **Java Spring Boot** and **AWS Lambda** to handle high-volume data streams from various sources.
- Implemented data transformation and enrichment stages using **Python** with **pandas** and **NumPy**, preparing data for downstream analytics and AI model training.
- Deployed and containerized the service using **Docker** on **AWS EC2**, ensuring scalability and efficient resource utilization with **99.98% availability**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
