+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Installed, maintained, and troubleshooted advanced semiconductor equipment, resolving complex machine component issues and ensuring adherence to **strict maintenance procedures**, contributing to a **99.8% uptime**.
- Managed production support for enterprise applications, responding to **P1/P2 incidents** within strict SLAs and performing root cause analysis using **Splunk** and **Dynatrace**, reducing critical downtime by **15%**.
- Developed and automated data pipelines using **Python** for ETL processes and scheduled reporting, enhancing data accuracy and reducing manual processing time by **30%**.
- Designed and implemented REST API features for enterprise Java Spring Boot services, improving system integration capabilities and supporting new feature rollouts.
- Collaborated with cross-functional teams to support and integrate with enterprise business systems, including ERP modules, coordinating change-control management and UAT across interconnected platforms.
- Analyzed and visualized complex datasets using **Power BI** and **DAX** to create interactive dashboards for stakeholders, translating raw data into actionable business insights and improving report generation efficiency by **40%**.

SKILLS

Field Service Engineering – Equipment Installation, Maintenance, Troubleshooting, Preventative Maintenance, Corrective Maintenance, Customer Collaboration, Technical Support.

Semiconductor Equipment – Electrical Systems, Vacuum Systems, Mechanical Systems, Plasma Systems, Hydraulic Systems, Gas Systems.

Tools & Technologies – Python, Java, Spring Boot, SQL, AWS, Docker, Linux, Git, Jenkins, Jira, Splunk, Dynatrace, Power BI, DAX, Power Query.

Data Analysis & BI – Digital Analytics, Data Visualization, Dashboard Development, Data Modelling, ETL, Statistical Analysis.

Engineering Fundamentals – Mechanical Aptitude, Pneumatics, Hydraulics, Electronics, Thermodynamics, Schematics Interpretation, Hand Tools, Digital Multimeters.

Software Development – REST APIs, Microservices, CI/CD, Agile/Scrum, Code Reviews, Production Support.

Business Systems – ERP Systems, Enterprise Applications, Change Management, UAT Coordination.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Semiconductor Equipment Diagnostic Dashboard

- Developed a diagnostic dashboard using **Python** and **Power BI** to monitor real-time operational data from advanced semiconductor equipment.
- Integrated data streams from various system components (electrical, vacuum, mechanical) to identify performance anomalies and predict potential failures.
- Implemented **DAX** measures to calculate key performance indicators (KPIs) related to equipment uptime and maintenance efficiency, supporting predictive maintenance approaches.

Automated Production Monitoring & Alerting System

- Engineered an automated system using **Java Spring Boot** and **AWS Lambda** for real-time monitoring of financial transaction flows.
- Configured **Splunk** alerts for failed or stuck transaction messages, reducing incident response time by **25%**.
- Supported operational alerting and transaction monitoring for a payments operations dashboard, ensuring adherence to strict SLAs and audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
