PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Managed **corporate action elections** for EMEA markets, ensuring proactive execution and reconciliation within strict daily timelines, reducing processing exceptions by **15%**.
- Executed **post-payment reconciliations** for stock and cash accounts, accurately booking entitlements and resolving discrepancies to maintain a **99.8%** reconciliation accuracy rate.
- Provided direct client servicing and issue resolution for **trading desks** and internal stakeholders, improving query turnaround time by **20%** through enhanced communication protocols.
- Collaborated with **Inventory Management Desk** and **Prime Brokerage** teams to manage positions and recover funds from external counterparties, successfully recovering **€500K+** in outstanding balances.
- Automated **transaction monitoring** processes for a financial-services dashboard using Python, reducing manual reconciliation efforts by **30%** and improving data integrity.
- Participated in cross-functional projects to enhance **operational workflows** and implement new procedures, contributing to a **10%** reduction in overall incident response time.

SKILLS

Core Competencies – Corporate Actions, Reconciliation, Client Servicing, Stakeholder Management, Risk Management, Data Analysis, Project Management.

Financial Services Tools – Power BI, Tableau, Splunk, Dynatrace.

Programming & Scripting – Python, Java, SQL, R.

Databases & Data Warehousing – PostgreSQL, MySQL, Oracle, DAX, Power Query.

Cloud & DevOps – AWS, Docker, Jenkins, Git.

Enterprise Systems – ERP Systems, REST APIs, JIRA, Confluence.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Corporate Action Event Management Dashboard

- Developed a **Power BI dashboard** to visualize and track voluntary and mandatory corporate action events across multiple markets, enabling faster decision-making.
- Implemented **DAX measures** for key performance indicators including election completion rates and reconciliation accuracy, providing real-time operational insights.

- Integrated data from various sources using **Power Query** to create a unified view of corporate action lifecycle status, reducing data consolidation time by **40%**.

Financial Transaction Reconciliation Automation

- Automated the reconciliation of stock and cash accounts for financial transactions using Python scripting, reducing manual effort for a core operational team.
- Developed **SQL queries** to validate transaction data and identify discrepancies, improving the accuracy of financial postings.
- Designed and implemented **REST APIs** for seamless data flow between the reconciliation engine and upstream financial systems, enhancing process efficiency.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
