PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and delivered **supply chain projects** in line with agreed targets, coordinating cross-functional teams to achieve **NPI** goals for clinical chemistry applications.
- Executed comprehensive **laboratory testing** for new raw material and supplier qualifications, including **failure investigation** and root cause analysis for problem products, recommending corrective actions.
- Authored detailed **documentation of test results** and generated reports for SCM files, ensuring adherence to quality standards.
- Provided **technical support** to internal departments for problem resolution and product maintenance, leveraging a strong understanding of **biochemistry** and experimental design.
- Implemented **quality assurance** protocols and ensured compliance with **GMP / FDA / ISO regulations** across laboratory operations and project deliverables.
- Analyzed and processed experimental data using **statistical analysis** techniques, translating complex findings into actionable insights for stakeholders.

SKILLS

Project Management – Supply Chain Projects, NPI, Cross-functional Teams, Timelines, Prioritization, Workload Management

Laboratory & Scientific – Clinical Chemistry, Biochemistry, Biology, Immunology, Hematology, Experimental Design, Statistical Analysis, Reagent Preparation, Failure Investigation

Quality & Compliance – Quality Assurance, GMP, FDA, ISO Regulations

Data & Reporting – Test Result Documentation, Report Generation, SCM Files, Data Calculation, Record Keeping

Technical Operations – Technical Support, Product Maintenance, Problem Resolution, Raw Material Qualification, Supplier Qualification

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Clinical Chemistry Reagent Qualification Platform

- Developed and managed a project to qualify new raw materials and suppliers for clinical chemistry assays, ensuring alignment with stringent supply chain targets.
- Executed detailed laboratory testing protocols and documented results, performing **statistical analysis** to validate material performance and consistency.

- Collaborated with cross-functional teams including R&D; and Operations to address technical challenges and ensure timely project completion.

Diagnostic Analyzer Performance Monitoring Dashboard

- Designed and implemented a **Power BI dashboard** to monitor the performance and uptime of diagnostic analyzers across multiple laboratory sites.
- Integrated data from various sources using **Power Query** and developed complex **DAX measures** to track key performance indicators and identify potential issues.
- Published interactive reports to business stakeholders, enabling proactive maintenance and reducing instrument downtime by an estimated **15%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
