

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed **Python** services to automate content classification and tagging for a DITA XML documentation pipeline, reducing manual effort by **30%**.
- Designed and implemented **REST APIs** for AI-powered search and Q&A; assistants, integrating LLM capabilities into the documentation platform.
- Engineered data transformation pipelines using **Python** and **SQL** to structure DITA XML content for AI consumption, improving content chunking and indexing efficiency by **25%**.
- Integrated **AI-assisted tooling** into existing authoring workflows within **Azure DevOps pipelines**, ensuring seamless adoption by documentation teams.
- Collaborated with architects and documentation leaders to define and implement standards for '**AI-ready documentation**', focusing on structure, semantics, and metadata.
- Managed **change-control processes** for system configuration updates and post-implementation support for interconnected documentation systems.

SKILLS

AI/ML & LLMs – RAG pipelines, LLM API integration, AI-assisted workflows, Classification, Tagging, Summarization, Content Quality Checks

Programming Languages – Python, Java, SQL, JavaScript, TypeScript

Content & Data Pipelines – DITA XML, Structured Content, Git, Azure DevOps pipelines, CI/CD, Microservices, Message Queues, REST APIs

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Data Analysis & BI – Power BI, DAX, Tableau, R, pandas, NumPy, scikit-learn, Data Warehousing

Enterprise Systems & Support – ERP integration, Production Support, Incident Response, Change Management, UAT Support

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

AI-Powered Documentation Assistant

- Developed a **Python** microservice that integrates with LLM APIs to provide summarization and keyword extraction for technical documents.
- Implemented a **RAG pipeline** to enable AI-driven Q&A; capabilities on a corpus of DITA XML documentation, improving information retrieval accuracy by **20%**.

- Created a **REST API** endpoint for the documentation platform to serve AI-generated content summaries and tags.

DITA Content Structuring for AI

- Engineered **Python** scripts to parse and transform DITA XML, adding semantic metadata and ensuring content is optimally chunked for AI processing.
- Built automated validation checks using **Python** and **SQL** to ensure content structure and metadata adherence across a large documentation repository.
- Integrated these structuring scripts into a **Git-based CI/CD pipeline** for automated content processing upon code commit.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
