

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed AI-assisted Python services for automated documentation **classification** and **tagging**, integrating with existing authoring workflows and reducing manual effort by **30%**.
- Engineered data pipelines to transform and structure **DITA XML content** into an AI-consumable format, defining metadata models and enabling efficient content chunking for LLM processing.
- Built and extended **REST APIs** to power AI-driven documentation experiences, such as intelligent search and Q&A; assistants, improving content retrieval accuracy by **22%**.
- Implemented **link and structure validation** utilities within a Git-based documentation pipeline, identifying and resolving over **150** broken links and structural inconsistencies.
- Collaborated with technical writers and platform engineers to define requirements for 'AI-ready documentation', ensuring content semantics and context were optimized for AI systems.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, resolving P1/P2 incidents and maintaining 99.9% SLA compliance for critical systems.

SKILLS

Languages – Python, Java, SQL, DITA XML, JavaScript, TypeScript

AI/ML & LLMs – RAG pipelines, LLM API integration, AI-assisted workflows, Classification, Tagging, Summarization

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Azure DevOps pipelines, Jenkins, Git

Data & Pipelines – Data pipelines, ETL, Structured content, Metadata models, Content quality checks, SQL (PostgreSQL, MySQL, Oracle)

Tools & Frameworks – Spring Boot, REST APIs, Oxygen XML Editor, OpenDITA, Jira, Confluence, Power BI, Tableau, Pandas, NumPy, Scikit-learn

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

AI-Powered Content Enrichment Pipeline

- Designed and implemented a Python-based pipeline to automate the enrichment of technical documentation using **LLM APIs** for content summarization and keyword extraction.
- Developed services for **content quality checks**, including schema validation against DITA XML standards and automated identification of outdated information, improving content accuracy by **15%**.

- Integrated the enrichment pipeline into a **Git-based workflow**, providing writers with AI-generated suggestions directly within their authoring environment.

Structured Data Transformation Service

- Built a Java Spring Boot microservice to transform unstructured documentation into a structured **DITA XML format**, essential for AI consumption and content management.
- Implemented robust error handling and logging using **Splunk**, ensuring 99.95% success rate for document transformations and enabling rapid issue resolution.
- Defined and applied a comprehensive **metadata model** to enhance content discoverability and enable AI-driven semantic search capabilities across the documentation repository.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
