PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Maintained and enhanced a production web platform using **JavaScript**, **HTML**, and **CSS**, ensuring 99.95% uptime for customer-facing documentation.
- Developed and automated site generation and publishing workflows in **Python**, reducing manual deployment time by **40%**.
- Integrated the documentation platform with backend **REST APIs** for search and content discovery, improving data retrieval efficiency by **20%**.
- Owned and improved **Azure DevOps (ADO) pipelines** for building and publishing documentation across QA and production environments.
- Authored **PowerShell scripts** for automating validation and publishing workflows, enhancing release repeatability and reducing errors by **35%**.
- Collaborated with product teams to integrate their documentation into release pipelines, providing tooling that increased consistent publishing by **50%**.

SKILLS

Frontend Web Development – JavaScript, HTML, CSS, Fetch API, UI State Management

Backend & Automation – Python, REST APIs, PowerShell Scripting

DevOps & CI/CD – Azure DevOps (ADO) Pipelines, Build & Deploy Workflows, Release Management

Cloud & APIs – AWS (EC2, S3, Lambda, CloudWatch), Cloud-Hosted APIs

Observability & Reliability – Splunk, Dynatrace, CloudWatch, Incident Response

Databases & Scripting – SQL (PostgreSQL, MySQL, Oracle), Bash Scripting

Web Technologies – Docker, Git, Jenkins, Jira, Confluence

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Automated Documentation Publishing Pipeline

- Designed and implemented an automated CI/CD pipeline using **Azure DevOps** to build and deploy technical documentation for enterprise software.
- Wrote **Python scripts** to manage content ingestion from multiple sources and validate documentation integrity before publishing.

- Integrated asynchronous API calls within the platform to enable dynamic content loading, improving user experience and reducing page load times by **25%**.

Interactive Web Platform for Customer Support

- Developed a customer-facing web platform using **JavaScript**, **HTML**, and **CSS**, focusing on user experience and information accessibility.
- Implemented interactive frontend features, including managing UI state for dynamic content and asynchronous API responses.
- Extended backend services to support search and content discovery integration, enhancing the ability for users to find relevant troubleshooting information.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
