PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Supported the **software development lifecycle** for enterprise applications, acting as a liaison between technical teams and business stakeholders to gather and document requirements.
- Assisted in the integration of **AI features** by defining use cases, data requirements, and success metrics for automated workflows, contributing to a **15%** improvement in process efficiency.
- Conducted **gap analysis** and process mapping exercises to identify opportunities for software optimization and AI-driven enhancements, presenting findings to non-technical audiences.
- Facilitated **User Acceptance Testing (UAT)** by creating detailed test scripts and coordinating feedback, ensuring final product alignment with original business intent and reducing post-launch defects by **20%**.
- Managed project documentation and backlogs within **Agile/Scrum** frameworks, ensuring clarity and accessibility for all team members and stakeholders.
- Analyzed complex data sets from various sources, translating findings into actionable insights for business stakeholders through clear and concise reporting.

SKILLS

Business Analysis – Requirement Elicitation, User Stories, Functional Specifications, Gap Analysis, Process Mapping, UAT, Stakeholder Management, Workshop Facilitation

Agile Methodologies – Scrum, Agile Development, Backlog Management, Sprint Planning, Retrospectives

AI & Data Science – AI Feature Integration, Machine Learning Models, Data Requirements, Success Metrics, Data Analysis, Statistical Analysis

Technical Skills – SQL, Python, Java, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins

BI & Reporting – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Visualization, Operational Reporting

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

AI-Driven Workflow Optimization Dashboard

- Developed a **Power BI** dashboard to visualize key performance indicators for AI-driven workflows, enabling stakeholders to monitor efficiency gains.
- Collaborated with business analysts to define and document requirements for AI model integration, translating business needs into technical specifications.

- Analyzed operational data using **Python (pandas, NumPy)** and **SQL** to identify bottlenecks and areas for AI-driven automation, contributing to a projected **10%** reduction in processing time.

Financial Transaction Monitoring System Enhancement

- Supported the production environment for a financial-services operations dashboard, focusing on **transaction monitoring** and operational alerting for payment message flows.
- Authored detailed functional specifications and user stories for enhancements to the **Java Spring Boot**-based system, improving reconciliation workflow accuracy by **99.8%**.
- Participated in UAT coordination and post-implementation triage for system updates, ensuring compliance with regulatory awareness and audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
