PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and resolved **P1/P2 incidents** for enterprise applications, ensuring adherence to strict service level agreements (SLAs) by proactively monitoring system health with **Splunk** and **Dynatrace**.
- Automated data extraction and reporting processes using **Python** scripts, reducing manual effort by an estimated **30%** and improving data delivery cadence for operational teams.
- Developed and maintained **Java Spring Boot REST APIs** to support new feature integrations within existing microservices architecture, enhancing system functionality.
- Supported and integrated enterprise business systems, including **ERP** modules, managing change control processes and coordinating User Acceptance Testing (UAT) across interconnected platforms.
- Designed and deployed interactive dashboards in **Power BI**, translating complex datasets into actionable insights for business stakeholders, leading to a **15%** improvement in reporting efficiency.
- Analyzed and debugged issues within a **payments operations dashboard**, performing root cause analysis on transaction monitoring alerts and collaborating with business analysts to implement fixes.

SKILLS

Application Support – Issue Analysis, Incident Management, Problem Management, System Monitoring, SLA Management, User Query Management

Programming Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Data Visualization – Power BI, Tableau, DAX, Power Query

Enterprise Systems – ERP Support, Change Management, REST APIs

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Financial Transaction Monitoring Dashboard

- Developed a dashboard using **Power BI** to visualize real-time transaction flows and operational alerts for a financial services client.
- Integrated with backend systems via **SQL** queries to aggregate data from multiple sources, supporting reconciliation workflows and audit trails.

- Automated data refresh processes using **Python** scripts, ensuring timely updates for stakeholders and improving system oversight.

Automated Production Alerting System

- Built a system to monitor application logs and performance metrics in a production environment using **Splunk** and **AWS CloudWatch**.
- Developed **Python** scripts to parse log data, identify critical error patterns, and trigger automated alerts via email and integrated ticketing systems.
- Implemented a containerized solution using **Docker** for consistent deployment across development and production environments, enhancing system reliability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
