PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained automated test scripts for enterprise applications, reducing manual regression testing effort by **30%** and improving defect detection rates.
- Managed and triaged production incidents for critical financial-services dashboards, ensuring adherence to strict SLAs and resolving P1/P2 issues within defined response times.
- Authored Python scripts to automate data extraction, transformation, and loading processes for operational reporting, accelerating report generation cycles by **40%**.
- Collaborated with cross-functional teams to define software validation strategies and ensure compliance with regulatory standards for new product development lifecycles.
- Designed and implemented quality engineering methodologies for new and existing software systems, including those involving Artificial Intelligence applications.
- Participated in validation project teams, coordinating schedules and ensuring adherence to BSC Change Control processes for software updates and new system deployments.

SKILLS

Languages – Python, Java, C#, C++, VB.Net, SQL

Quality Engineering – Software Validation, Equipment Qualification, Regulatory Compliance, Part 11, Data Integrity, Change Control, Test Automation

Tools & Platforms – Power BI, Power Automate, Splunk, Dynatrace, AWS, Docker, Jenkins, Jira, Confluence, Git

Databases – PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, Quality Management Systems, Business Service Excellence

Domain Specific – Artificial Intelligence Applications, Data Reporting Software, Spreadsheet Validation

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Automated Compliance Reporting Dashboard

- Developed a Power BI dashboard to automate the generation of compliance reports for financial transaction data, consolidating information from multiple SQL databases.
- Implemented custom DAX measures and Power Query transformations to cleanse and structure data, reducing manual reporting time by **50%**.

- Published interactive reports to stakeholders, providing real-time visibility into key operational metrics and audit trail requirements.

Production Incident Management & Automation Suite

- Engineered a suite of Python scripts to automate log analysis and alert correlation within a production monitoring environment, reducing Mean Time To Detect (MTTD) by **25%**.
- Integrated automation scripts with Splunk and Dynatrace, enabling faster root cause analysis for critical incidents on enterprise Java applications.
- Supported incident response for a financial-services operations dashboard, focusing on transaction monitoring and reconciliation workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
