PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Managed IT service management queues, ensuring adherence to defined SLAs for infrastructure incidents and problems, achieving a **98% first-contact resolution rate**.
- Supported and troubleshooted diverse infrastructure technologies including **compute, storage, and remote desktop solutions**, resolving an average of 15 complex issues per week.
- Executed change management processes by documenting, implementing, and verifying changes, contributing to a **15% reduction in change-related incidents**.
- Researched, diagnosed, and resolved system issues proactively, documenting solutions and facilitating knowledge transfer to peers and end-users, enhancing team efficiency by **20%**.
- Owned reported issues from inception to resolution, escalating unresolved problems to internal teams or vendors within defined SLAs, and maintaining a **99.5% SLA compliance**.
- Participated in projects for new acquisitions and solution updates, including architecture reviews and implementation tasks, ensuring smooth transitions into support operations.

SKILLS

Cloud Platform Management – AWS, Azure

Virtualisation Platform Management – Nutanix, VMWare, Hyper-V

Storage Management – Dell Compellent, PowerStore, PowerScale, HPE Nimble

Server & Hardware Management – Dell Server, HP Server, Storage hardware

Windows Server Management – Active Directory, DNS, DHCP, Group Policy, Certificate Services

ITSM & Methodologies – ITIL, Incident Management, Problem Management, Change Management

Scripting & Automation – Python, Shell Scripting

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Infrastructure Monitoring and Alerting System

- Developed and maintained an enterprise-wide monitoring solution using **Splunk** and **AWS CloudWatch** to track the health of critical systems, reducing P1 incidents by **30%**.
- Automated diagnostic data collection for recurring incidents using **Python** scripts, decreasing average resolution time for common issues by **45%**.

- Documented standard operating procedures and troubleshooting guides for common infrastructure problems, contributing to the team's knowledge base and onboarding of new members.

Hybrid Cloud Environment Automation

- Implemented automated deployment and configuration management for hybrid cloud environments leveraging **AWS EC2**, **Docker**, and **Jenkins** CI/CD pipelines.
- Integrated system monitoring and vulnerability remediation tasks into automated workflows, addressing critical security bulletins within **48 hours** of release.
- Collaborated with cross-functional teams across different geographical regions to standardize infrastructure services and support global system globalization efforts.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
