PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Configured and tested **EHR application** modules for a large-scale digital healthcare transformation project, ensuring alignment with clinical workflows.
- Managed and resolved P1/P2 incidents for enterprise applications, maintaining strict **service level agreements (SLAs)** and ensuring high availability.
- Developed automated **Python scripts** to streamline data validation and ETL processes, reducing manual data handling efforts by **30%**.
- Contributed to the development of a **Java Spring Boot** REST API for integrating enterprise systems, enhancing data exchange capabilities.
- Supported and integrated with **ERP modules** and operational platforms, coordinating change control management and post-go-live support across interconnected systems.
- Designed and published interactive **Power BI dashboards** for business stakeholders, visualizing key performance indicators and operational metrics, leading to a **15%** improvement in data-driven decision-making.

SKILLS

EHR Systems – Electronic Health Record, Epic

Healthcare IT – Digital Health, Clinical Applications, Hospital Administration

Programming & Scripting – Java, Spring Boot, Python, SQL

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Enterprise Systems – ERP, REST APIs

Operations & Support – Production Support, Incident Management, SLA Management, Splunk, Dynatrace, Linux

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Digital Health Patient Portal Development

- Engineered a **web portal** using **Java Spring Boot** and **React** to provide patients with secure access to their health records and appointment scheduling.
- Integrated the portal with a simulated EHR backend via **REST APIs**, handling user authentication and data retrieval for a seamless user experience.

- Implemented data visualization features within the portal using **Power BI** embedded analytics to display patient health trends and historical data.

Healthcare Operations Analytics Dashboard

- Developed a comprehensive **Power BI dashboard** to monitor key operational metrics for a hospital department, including patient wait times and resource utilization.
- Extracted and transformed data from disparate sources including **SQL databases** and flat files using **Power Query**, ensuring data integrity for reporting.
- Automated report generation and distribution using **Python scripts**, reducing manual reporting time by **40%** and ensuring timely delivery of insights to management.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
