PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **end-user features** for large-scale collaboration platforms, handling millions of users and contributing to a **15% increase** in user engagement metrics.
- Owned the breakdown of product requirements into clear **technical designs** and executable tasks, delivering high-quality, maintainable solutions within an existing **Java Spring Boot** framework.
- Reviewed designs and code for a distributed systems team, guiding implementation decisions and raising engineering quality standards, resulting in a **20% reduction** in critical production defects.
- Investigated customer issues and identified root causes for collaboration software, driving meaningful improvements that led to a **10-point increase** in customer satisfaction scores.
- Developed **Python automation scripts** for data pipelines and scheduled reporting, improving data processing efficiency by **30%** and reducing manual effort.
- Managed change-control processes for system configuration updates and coordinated User Acceptance Testing (UAT) across interconnected **ERP and operational platforms**, ensuring smooth post-go-live transitions.

SKILLS

Languages – Java, Python, C++, Swift, TypeScript, JavaScript

Back-end Development – Spring Boot, RESTful APIs, WebSockets, API Design

UI Frameworks – React, Angular, Qt, Cocoa

Cloud & DevOps – AWS, Docker, Git, Jenkins, CI/CD, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Development Tools – Jira, Confluence, Splunk, Dynatrace

AI-Assisted Development – LLM tools for scaffolding, refactoring, test generation

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time Collaboration Feature Service

- Designed and built a **RESTful API service** using **Java Spring Boot** to deliver real-time updates for user presence and status within a collaboration suite.
- Implemented **WebSockets** for bidirectional communication, ensuring low-latency data synchronization for **100,000 concurrent users**.
- Integrated with **AWS services** like EC2 and RDS for scalable deployment and robust data persistence.

Automated Reporting Pipeline for Financial Operations

- Developed a **Python-based ETL pipeline** to aggregate and process transaction data from multiple sources, supporting a financial-services dashboard.
- Automated the generation of daily operational reports using **SQL queries** across **PostgreSQL** and **Oracle** databases, reducing report generation time by **40%**.
- Implemented data validation checks and error handling to ensure data accuracy and integrity for critical reconciliation workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
