PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed IT infrastructure and connectivity for **multiple construction project sites**, ensuring seamless operations and communication lines.
- Supported the **user lifecycle process** within Microsoft 365, including license management and access controls for files, SharePoint, and distribution lists, impacting over 500 users.
- Administered **IT hardware lifecycle** processes, from procurement and setup to decommissioning, maintaining an accurate inventory of assets across offices and sites.
- Assisted with the implementation and monitoring of **cybersecurity controls** and user awareness campaigns, reinforcing company-wide security protocols.
- Provided **Level 1 and Level 2 IT support** for hardware, software, and system issues, escalating complex tickets to the Managed Service Provider while resolving ~70% of incidents directly.
- Contributed to the development and implementation of **SharePoint platform** functionalities for various departments, enhancing internal collaboration and document management.

SKILLS

IT Administration – Hardware Lifecycle Management, Site IT Setup, Software Licensing, IT Support, Ticket Escalation, User Training, Cybersecurity Controls, Microsoft 365 Administration, SharePoint Administration.

Networking & Connectivity – Voice/Data Connectivity, Internet Lines Management, Site Connectivity.

Operating Systems – Linux (Shell Scripting, Log Analysis), Windows.

Databases & Data Management – SQL (PostgreSQL, MySQL, Oracle), Data Integrity, Data Warehousing.

Programming & Scripting – Python (Automation, ETL), Java (Spring Boot), REST APIs.

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker.

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Reporting.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Site Infrastructure Deployment and Management System

- Developed Python scripts to automate the initial IT setup for new construction project sites, reducing deployment time by **40%**.
- Implemented a centralized monitoring system using **AWS CloudWatch** and custom shell scripts to track connectivity and system health across remote sites.

- Managed the lifecycle of IT assets deployed to project sites, including hardware provisioning and end-of-life decommissioning, ensuring compliance with asset management policies.

Internal Operations Dashboard & Reporting Platform

- Designed and built interactive dashboards in **Power BI** to visualize key operational metrics and IT system performance, enabling faster issue identification.
- Integrated data from multiple sources, including system logs and asset databases, using **Power Query** for ETL and data transformation.
- Created custom **DAX measures** to derive actionable insights on hardware refresh cycles and software license utilization, supporting cost optimization initiatives.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
