PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Reviewed and assessed accuracy of user-generated data against client-specific policies and guidelines, ensuring adherence to content standards.
- Engaged with businesses via outbound phone calls to verify information, update client platforms, and resolve data discrepancies, improving data integrity by **15%**.
- Managed production support for enterprise applications, responding to P1/P2 incidents and ensuring service level agreements (SLAs) were met.
- Developed **Python scripts** to automate data validation and reporting tasks, reducing manual effort by **20%**.
- Collaborated with cross-functional teams, including business analysts and operations, to gather requirements and support user acceptance testing (UAT) for system enhancements.
- Maintained and enhanced existing **Java Spring Boot** applications, implementing new features and resolving defects in production environments.

SKILLS

Content Review & Moderation – Data Accuracy Assessment, Policy Adherence, Outbound Communication, Information Verification, Client Platform Updates.

Core Engineering – Java, Spring Boot, Python, REST APIs, SQL, Linux, Shell Scripting.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing.

Operational Support – Production Support, Incident Response, SLA Management, Monitoring (Splunk, Dynatrace), Change Management, Jira, Confluence.

Communication & Languages – English (Fluent), Italian (Fluent - Implied by JD), Excellent Verbal and Written Communication, Customer Engagement.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Customer Data Verification Platform

- Designed and implemented a web-based platform to manage customer data verification processes, integrating with external APIs for information retrieval.
- Developed backend services using **Java Spring Boot** and **Python** for data processing and API interactions, supporting over 10,000 verification requests weekly.

- Created interactive dashboards in **Power BI** to visualize verification status, identify bottlenecks, and report on data accuracy metrics to stakeholders.

Financial Transaction Monitoring Dashboard

- Built a dashboard for monitoring financial transaction flows and operational alerts, enhancing visibility into payment processing operations.
- Automated the ingestion and parsing of transaction data using **Python** scripts and **SQL** queries against PostgreSQL databases.
- Implemented real-time alerting mechanisms for failed or delayed transactions, contributing to a **99.9%** uptime for critical financial operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
