PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **lab equipment validation projects** from software installation to business release, ensuring compliance with **GMP guidelines** and site procedures for new instruments.
- Generated comprehensive **computer system validation documentation**, including Design Specifications, Configuration Specifications, Test Plans, Security Plans, and Test Summary Reports.
- Analyzed and challenged **software releases** by reviewing release notes to identify functional and compliance gaps, ensuring alignment with project requirements.
- Provided **systems validation and compliance expertise** for newly purchased laboratory instruments, integrating them into the QCL Labs and Manufacturing Operations environments.
- Collaborated cross-functionally with operations teams and business analysts to gather requirements, coordinate **User Acceptance Testing (UAT)**, and provide post-implementation support for enterprise systems.
- Maintained production environments with strict SLAs and audit trails, adhering to **GDPR awareness** and regulatory requirements for financial-services related dashboards.

SKILLS

Validation & Compliance – Computer System Validation (CSV), 21 CFR Part 11, GMP Guidelines, ER/ES, Data Integrity, Site Procedures, Regulatory Compliance

Software Development – Java, Spring Boot, Python, REST APIs, SQL, PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, R, RStudio, pandas, NumPy, scikit-learn

Project Management & Support – Jira, Confluence, Incident Response, Change Management, UAT Coordination, SLA Management, Business Analysis, Documentation

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Laboratory Instrument Validation Framework

- Developed a standardized framework for **Computer System Validation (CSV)** of new laboratory instruments, encompassing design, configuration, testing, and security documentation.
- Implemented validation protocols aligned with **21 CFR Part 11** and **GMP guidelines**, ensuring data integrity and regulatory compliance for critical lab systems.

- Managed the end-to-end validation lifecycle, including review of **software release notes** and coordination of testing activities with lab operations teams.

Financial Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** by improving transaction monitoring and alerting for failed payment messages, reducing manual intervention by **30%**.
- Refactored SQL queries and implemented optimized data pipelines using **Python and PostgreSQL** to improve the performance of reconciliation workflows, decreasing report generation times by **25%**.
- Collaborated with business analysts to define requirements for new operational alerts and audit trail features, ensuring adherence to **GDPR** and financial-services regulatory awareness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
