PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed incident queues and resolved system errors for validated Analytical Laboratory Systems, collaborating with vendor and global teams to restore service within defined SLAs.
- Performed user administration and periodic reviews for local laboratory applications, ensuring compliance with audit trail requirements and maintaining system integrity in a regulated environment.
- Provided Level 1 front-line support to laboratory users, troubleshooting system errors and escalating complex issues to global support teams.
- Supported the deployment of system content and conducted end-user training sessions, facilitating adoption and effective use of laboratory applications.
- Analyzed and resolved system errors for enterprise business systems, coordinating change-control management and UAT support across interconnected platforms.
- Developed Python scripts to automate data extraction and reporting tasks for financial-services operations, improving data delivery efficiency by **30%**.

SKILLS

Operating Systems – Microsoft Windows (Windows 7, Windows Server 2003/2008), Linux

Laboratory Systems – LIMS, GMP Essential Labware

Application Support – Incident Management, User Administration, Audit Trail Review, System Deployment, End User Training

Troubleshooting – System Errors, Root Cause Analysis, Vendor Collaboration, Global Team Coordination

Programming & Scripting – Python, Java, Spring Boot, SQL

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

Databases – PostgreSQL, MySQL, Oracle

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Laboratory Information Management System (LIMS) Enhancements

- Enhanced a LIMS platform by developing automated data validation scripts in **Python**, reducing manual data entry errors by **22%**.
- Implemented robust logging and monitoring for critical laboratory system processes using **Splunk**, improving issue detection time by **40%**.

- Collaborated with QA and operations teams to define requirements and support UAT for new LIMS features, ensuring alignment with GMP standards.

Financial Transaction Monitoring Dashboard

- Developed and maintained a **Power BI** dashboard for monitoring financial transaction flows, providing real-time visibility into processing status and identifying bottlenecks.
- Integrated data from multiple sources using **Power Query** and designed **DAX** measures to calculate key performance indicators for payment operations.
- Supported the production environment of the dashboard, responding to operational alerts and triaging issues to ensure high availability for business stakeholders.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
