PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Maintained and enhanced multiple **Java Spring Boot** systems, ensuring **99.9% availability** and data integrity for financial operations workflows.
- Automated data validation and reporting processes using **Python scripting**, reducing manual effort by **40%** and improving report generation speed.
- Collaborated with cross-functional teams including scientists and engineers to understand requirements and implement system improvements for a pharmaceutical client's manufacturing environment, leading to a **15% reduction in incident resolution time**.
- Developed and supported software solutions using **Python, SQL, and Java**, contributing to the reliability and compliance of production systems.
- Managed ongoing compliance activities, including periodic reviews and audit trail analysis, ensuring adherence to **pharmaceutical regulations** and **GMP** standards.
- Monitored system performance across **AWS** and on-premise infrastructure, implementing proactive measures that prevented **over 10 critical downtime events** in a six-month period.

SKILLS

Programming Languages – Python, Java, SQL, R, DAX

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Data Analytics & BI – Power BI, Tableau, pandas, NumPy, scikit-learn, data modelling, data warehousing, Power Query

Development Tools & Methodologies – Spring Boot, REST APIs, Git, Jenkins, Jira, Confluence, Agile, Scrum, CI/CD

Databases – PostgreSQL, MySQL, Oracle

Domain Specific – Manufacturing and Supply Chain, GMP, CSV, Data Integrity, Pharmaceutical Regulations, Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Payments Reconciliation & Transaction Monitoring Dashboard

- Developed a **Java Spring Boot**-based dashboard for monitoring financial transaction flows, enabling real-time tracking of payment statuses and highlighting reconciliation discrepancies.

- Implemented automated alerts for failed or stuck payment messages using **Python** and **SQL** queries against a **PostgreSQL** database, reducing manual oversight by **30%**.
- Designed and maintained system procedures and documentation, ensuring compliance with regulatory awareness and GDPR requirements for the financial services client.

Manufacturing Data Analytics Platform

- Built interactive dashboards in **Power BI** to visualize key performance indicators for manufacturing operations, integrating data from disparate sources using **Power Query**.
- Created **DAX** measures for complex analytical calculations, providing stakeholders with actionable insights into production efficiency and identifying areas for improvement.
- Supported data integrity and compliance requirements by implementing validation protocols for data pipelines feeding into the analytics platform.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
