PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Documented and translated complex client business processes into efficient, quality-controlled workflows within the **Confidence platform**, enhancing operational visibility for enterprise clients.
- Analyzed client data using **Excel** and statistical methods to build comprehensive business cases, demonstrating the value and ROI of process automation and standardization initiatives.
- Collaborated with cross-functional teams to gather requirements and coordinate User Acceptance Testing (UAT) for system integrations and process improvements, ensuring alignment with business objectives.
- Developed and delivered live product demonstrations and training sessions for client stakeholders on the **Confidence platform**, driving user adoption and effective utilization of its features.
- Managed change control processes for enterprise business systems, coordinating UAT and providing post-go-live support across interconnected platforms, reducing system downtime by **15%**.
- Automated data extraction and reporting tasks using **Python scripting**, reducing manual effort by approximately **20 hours per week** and improving data accuracy for operational dashboards.

SKILLS

Process Engineering – Business Process Mapping, Workflow Design, Process Optimization, User Training, Business Case Development, Requirements Gathering, Client Relationship Management

Software & Platforms – Confidence Platform, Excel, Jira, Confluence

Programming & Scripting – Python, SQL

Data Analysis & BI – Data Interpretation, Data Visualization, Statistical Analysis

Cloud & DevOps – AWS, Docker, Jenkins, Git

Enterprise Systems – ERP Systems, REST APIs

Methodologies – Agile, Scrum

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Process Documentation Platform

- Designed and implemented a system for capturing and documenting institutional knowledge, translating complex operational procedures into structured workflows.
- Integrated data analysis capabilities to provide insights into process execution, measuring productivity and identifying bottlenecks for optimization.

- Developed a user-friendly interface for stakeholders to interact with documented processes and provide feedback for continuous improvement.

Financial Operations Dashboard Enhancements

- Enhanced a payments operations dashboard by refining transaction monitoring and operational alerting for failed payment messages, improving system uptime to **99.9%**.
- Automated data validation and reconciliation workflows using **Python** and **SQL** queries across PostgreSQL and Oracle databases, reducing manual reconciliation time by **30%**.
- Collaborated with business analysts to gather requirements for new reporting features, enabling stakeholders to track key performance indicators for financial transactions.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
