PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Managed and resolved P1/P2 incidents for enterprise applications, maintaining **99.9% SLA compliance** through proactive monitoring with **Splunk** and **Dynatrace**.
- Automated routine data extraction and reporting tasks using **Python scripting**, reducing manual effort by an estimated **40%**.
- Developed and maintained **REST APIs** using **Java Spring Boot** to support cross-system integrations, processing over **10,000 requests daily**.
- Executed complex **SQL queries** for data validation and schema analysis across **PostgreSQL** and **Oracle** databases, supporting critical business operations.
- Administered and configured **Windows Server 2019/2022** environments, ensuring the stable operation of server applications including **Active Directory** and **Microsoft Exchange**.
- Supported end-users with diverse technical expertise, troubleshooting hardware and software issues on **personal computers** and **laptops** to ensure seamless workflow completion.

SKILLS

Operating Systems – Windows Server 2016, 2019, 2022, 2025, Windows 10, Windows 11, Linux

Networking – Multi LAN/WAN environments, WAN communication links

Server Applications – Active Directory, Microsoft Exchange, Exchange Online, Microsoft SQL 2014/2016, Microsoft Office 365

Hardware – Servers, routers, firewalls, personal computers, laptops, printers, SAN technology

Cloud Technologies – AWS (EC2, S3, Lambda, CloudWatch), Citrix Cloud, Microsoft cloud technologies

Development & Scripting – Java Spring Boot, Python, REST APIs, SQL, Docker

Monitoring & Support Tools – Splunk, Dynatrace, CloudWatch, Jira, Confluence

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Application Support & Automation Platform

- Developed a **Python-based automation framework** to streamline incident response and log analysis for critical enterprise applications, reducing mean time to resolution by **20%**.
- Implemented comprehensive monitoring dashboards using **Splunk** to track system health and application performance, enabling proactive identification of potential issues across multiple production environments.

- Managed change requests and deployed updates for enterprise business systems via **Jenkins pipelines**, ensuring adherence to strict change-control protocols and minimizing service disruption.

Networked Systems & User Support Dashboard

- Configured and maintained **Windows Server** environments and essential server applications like **Active Directory** and **Microsoft SQL** to support a dispersed user base.
- Provided direct technical support to users across varying levels of technical proficiency, resolving hardware and software issues on **PCs** and **laptops**, enhancing user productivity.
- Managed external vendor contracts and liaised with suppliers for hardware and software procurement and maintenance, ensuring timely delivery and cost-effectiveness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
