

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Produced detailed **2D and 3D engineering drawings** using **SolidWorks** and **AutoCAD** for bespoke architectural metalwork, sustaining **99.5% drawing accuracy** against project specifications.
- Assisted estimating teams with **material take-offs** and preliminary design reviews, contributing to the preparation of customer quotations that secured **15% of new business bids**.
- Supported project delivery by generating and managing **works orders** and **bills of materials**, ensuring timely production documentation within the **Statii ERP** system.
- Maintained accurate **batch traceability** and **drawing revisions** in line with company quality procedures, reducing data entry errors by **20%**.
- Liaised directly with customer design managers and internal production teams to coordinate technical requirements and resolve design queries, improving RFI response times by **30%**.
- Contributed to document control and workflow optimisation initiatives within the design office, identifying opportunities for **design automation** which are projected to save **10 hours per week**.

SKILLS

CAD Software – SolidWorks, AutoCAD

ERP Systems – Statii, PostgreSQL, MySQL, Oracle

Engineering & Design – 2D Drawings, 3D Models, Architectural Metalwork, Modular Systems, OEM Products, Material Take-offs, Bills of Materials, Batch Traceability, Drawing Revisions, Lean Engineering Processes, Design Automation

Project Management – Works Orders, Production Documentation, Commercial Tracking, Operational Efficiency, Project Coordination

Collaboration & Communication – Customer Design Managers, Architects, Project Managers, Internal Production Teams, Estimating Teams, Sales Teams, Cross-functional Teams

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Bespoke Metalwork Design & Fabrication System

- Developed a comprehensive set of **2D and 3D SolidWorks models** and detailed fabrication drawings for custom steel and aluminum structures.
- Generated precise **bills of materials** and works orders directly from design files, integrating with a production tracking system to ensure accurate material allocation.

- Collaborated with fabrication teams to refine designs based on production feasibility, reducing rework instances by **18%** on new product introductions.

Modular Systems Design Automation

- Engineered repeatable design systems and **CAD libraries** within SolidWorks to standardize modular product ranges, accelerating new design creation by **25%**.
- Assisted in developing preliminary cost estimates and material take-offs for sales quotations by leveraging standardized design components.
- Contributed to documentation control and workflow optimisation, identifying opportunities to automate the generation of key production records.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
