PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Analyzed financial statements and market data to conduct comprehensive **credit risk assessments** for surety business lines, informing underwriting decisions and minimizing potential client losses.
- Developed and maintained robust client relationships, proactively identifying opportunities to tailor financial solutions and negotiate contract terms for **risk-aligned outcomes**.
- Managed bond underwriting processes and ensured adherence to company guidelines, maintaining meticulous **documentation and compliance** across all surety contracts.
- Monitored and mitigated risks throughout the full insurance cycle, including proactive assessment of potential claims phases and implementing preventative strategies.
- Collaborated with cross-functional teams to provide data-driven insights for the development of new financial products and improvements to existing offerings, supporting **strategic business development**.
- Supported decision-making processes by delivering well-researched proposals and risk analyses for diverse financial instruments, ensuring **accurate risk profiling** and client engagement.

SKILLS

Financial Analysis – Credit Risk Assessment, Financial Statement Analysis, Accounting Principles, Risk Mitigation, Market Dynamics, Data Interpretation

Underwriting & Risk Management – Surety Underwriting, Bond Management, Contract Negotiation, Client Relationship Management, Prospecting, Risk Monitoring

Business & Client Engagement – Client Relationship Management, Interpersonal Skills, Negotiation, Business Development, Solution Tailoring, Communication

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Financial Risk Analysis Dashboard

- Developed an interactive dashboard using **Power BI** to visualize key financial metrics and risk indicators for a portfolio of enterprise clients.
- Integrated data from multiple sources, including financial statements and market feeds, using **Power Query** for ETL and data modelling to support credit risk assessments.

- Implemented custom **DAX measures** to calculate risk scores and identify trends, enabling stakeholders to make informed decisions on credit exposures.

Automated Transaction Monitoring System

- Designed and implemented a Python-based system to automate the monitoring of financial transaction flows, reducing manual review time by **40%**.
- Developed **REST APIs** using Spring Boot to integrate with upstream and downstream financial systems, ensuring seamless data exchange and operational continuity.
- Configured alerts and reporting mechanisms within a **payments operations dashboard**, providing real-time visibility into transaction status and potential anomalies, supporting strict SLAs.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
